THE DAILY BEE.

For Congressmen
Senators, &c.
T. G. HUNT.

1000 New Orleans Mail, dated yesterday, but a few New Orleans paper companies have not yet given us word as to when we can be shown to the public.

THE FEVER.

The complete return of the instruments for the past week furnish an aggregate of mortality in New Orleans, which far超passed any record made before, and is probably the highest number of deaths in any one week since the cholera declined. It seems to be almost impossible that this fatal rate can last long, but it is evident that the fever has not yet reached its maximum.

The intelligence from California presents few details of the epidemic.

The White Convention at Sacramento has an

adopted a tarket comprising the following nations:

For Governor, William W. Webb; for Lieut-

Governor, Henry C. Calveras; for Just-

ice, John C. Jones; for Auditor, D. M.

Newell; for Controller, Gilmer; for Comptroller, W. H. V. Palmer; for Treasurer, James K. Woodworth; for Surveyor of Public Instruction, Sherman Day; for State Auditor, George W. Sutter.

At the time of our issue, we hear of the

most well known citizen, the preci-

ously marked that visitation from the

White Convention, to be the cause of the

epidemic. The actual cause of the

epidemic is not known.

In this city, the mortality, as com-

pared with the usual mortality, is

considerably increased.
