ne most pregnant and agniseans of relopments, is the manifestation of an able and monopolizing last of effice, of d political influence by a particular the Democratic party, which in this

In the Sexure, or the 19th, or major of Me Micha, the Hereis teek up this bill pe mand the shorter of the Blacket of Columbia, by ex-tending the right of militage, allowing the co-gestion to make our er all of the-effects size-gestion to make our er all of the-effects size-

Coorul at Havana, sailed in the Empire City on Wednesday.

Two police officers, named Smith and Keen neby, were arrested on Wednesday morning, charged with burglary. It appears that far. Hopkins, a grocer, corner of Harrison and Green wich streets, having missed many articles from his attore lately, kept a watch on Taesday night, and about 3 o'clock one max was seen to enter the store, while another kept watch on the parcenest. Mr. Hopkins and his clerk immediately pounced spon and secured them and was assonated to make the property of the corresponding piston of the upper cylinder from his attore lately, kept a watch on Taesday night, and about 3 o'clock one max was seen to enter the store, while another kept watch on the parcenest. Mr. Hopkins and his clerk immediately pounced spon and secured them and was assonated to see a spon of the upper cylinder the corresponding piston of the upper cylinder to enter the store, while another kept watch on the respensator, is deprived of its one of the part of the store respending piston of the upper cylinder to enter the store, while another kept watch on the respensator. It is desired in the tore responding piston of the upper cylinder to enter the store, while another kept watch on the respensator. It is desired that the loss of opposer and the property of the property of the store of the property small, compared with that of the store ready for resourch. The stall has created no little sensation, and the treverse; so that a continual that the corresponding piston of the suppression of the store respensator, it is decired into the store respensator, it is decired into the store respensator. The cylinders being of store and the store respensation that the corresponding piston of the suppression of the store respensator, it is considered to the store respensator. It is considered to the store respensation of the store respensation and the respens

next.

On Wednesdey the boiler in the machine setablishment of W. B. Miles, in the Northern Liberties, exploded, destroying a small outhouse and a stable, and partly demolishing a two story dwelling. Fortunately no person was injured, although the store was upent in the dwelling, where there were several children.

Complete Success of the Experiment.

In the Serayu, on the 19th, as inciden of Mc.
Shields, the Senate teak up this hill po manned
the advertise of the Baratte of Gelemitility by or
generation the relate of mellings, allowing the overgeneration to make any on all-of-the-officers aloc
to by delingid policy private, The bill was considered and passed.

The original policy private, The bill was considered and passed.

The original policy private, The bill was considered and passed.

The original policy private, the desired conity estimated policy private, the constitution of
a national and hermshow for entablishing certain
policy private the property of the bill.

The Senate than teak up the construction of
a national and hermshow for entablishing certain
policy private the property of the bill.

The foreste the teak up the construction of
a national and hermshow for entablishing certain
policy private and the second private and commerce, and for the ascensery defences
of the country.

Mr. Grain addressed the Senate at length in
support of the bill.

Mesers. Bell and Hamilin followed in force of
immediate quantidersion of the bill in all fillior, Saward, Davin, Case, Read, and others hilllowed, approving the general object of the Bill,
but desiring time to consider the details. The
bill was then persponed till Honday, and the
Senate adjuarsed.

In the Royrs, the Gardiner claim was disconsensed at great length.

The bill was then read by sentimen, and an
anamedment was agreed to, probabilities the recooling any claim, entopy by begages, inherit,
asse or marriage; and with one or two other
ninor amendments were agreed to, when an
anion was made to be it be bill upon the table,
and the year and any having been redered, the
and one was rejected—year if, mays 146.

Mr. King moved to recommittee production, penalty of the principles which
was negatived—year St. anys 78.

Mr. King moved to recommitte the bill, and
called for the principles which
was negatived—year st. anys 18.

Mr. King moved to recommitte the bill, and
called for the prin

tion wax made that the Homes adjourn, which was negatived—yes sign says 75.

Mr. King moved to re commit the bill, and called for the previous question; pending which, the House adjourned.

LATER FROM MEXICO.

The Picayune has received intelligence from Maxico to the lat January, by the Jestel fame Havans, via Charleston. The revolution still progresses. It was removed that the Government troops had been regules at Geadalajars, and that Ges. Mison had been tilbel; but an other report states that the latter was easy rightly wounded.

The Maxican Congress closed its extra session go the 31st ult., and the regular assaion war to begin on the 1st January. Wa copy the closing ramerks of the Fracident of the Session. When Congress closed its extra session go the 31st ult., and the regular assaion war to begin on the 1st January. Wa copy the closing ramerks of the Fracident of the Session.

"When Congress closed its sessions in May latt, nearly the whole of the Republic onlyod the bleasings of pasce. When the agart session commenced in October, the greater portion of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the company of the session commenced in October, the greater portion of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation of the session which is necessary to the operation
