were against a convention, when we have seen that a Whig legislature passed the act in question; when Whig Governor signed it, and when the popular viole abilitied an acquiescence of all parties in the propriety of callier post.

ICT The Governor has issued his proclamation ordering an election to be held in this city on the 18th December, and the two days following, for a representative to the Legislature, to supply the vacancy occasioned by the resignation of Felix Labatur, Esq. If we are not mistaken, there is a law of the Legislature providing that all elections in the city shall take place in one day. For the last two years, at the general elections, the polls in New Orleans have been kept open but a single day.—We apprehend the Governor has unintentionally fallen into error in ordering the election to be held during three days.

Now the power of Congress in to regulate commerce, to regulate trade, and what is the extent of that power! I may say, greatlemen, that notody has disputed its extertor. All, English history, and all Asperian history down to the time of the Revolution, show that the power to regulate trade was understood as secessarily comparising the power of so doing it as to favor home production. The phrase has come to be as well understood as any other in the English language from which it was taxen.
