We have papers from New York of the evening of the lat instaut, Washington of the 2d, and Charleston of 7th. They are wholly destitute of interest

We have received our tiles of Havana Journals to the 4th matant inclusive-they contain nothing interesting. General RIOASORT had arrived at Havana, to replace general Vives in the supreme command of the island of Cuba.

We find nothing in the proceedings of congress worth re. peating. The bill for rechartering the United States bank was still under discussion in the senate; and the hill reportriff, in the house, on a motion to strike out the enacting clause, with a view to the substitution of the bill reported by the committee of manufactures. The motion prevailed, 81 to 41. Colonel R. M. Johnson intimated, in his place in the house, that congress will probably adjourn in two or three weeks.

The amateurs who have afforded so much amusement to the public, and gained so much credit to themselves, not itself to our enjoyment, we are thrown by this propionly for the correct manner of their representations, but for the bestevolent objects of their efforts, it will be seen by the the Union—and of civil war—a discord, and a civil war to-morrow evening. The occeipts will be for the benefit of Mr. Alfred and Madame Chollet, both of whom are meritotions in their profession, and exemplary in their individual deportment. A very numerous meeting of the friends of the pro ective system took place at Philadelphiu on the 28th ult. The mechanics and manufacturers from severa miles around are said to have attended, though the inelemency of the day-must have thinned their numbers. The accounts vary from 8 to 10,000 persons present. They were determined and bitter against the proposed autifications of the tariff. Take the following as a pecimens of their resolutions:

"Resolved, That we are opposed to the bill from the secretary of the treasury, because it aims a blow at the prosperity of our country, is alike injurious to its agrialtural, manufacturing and commercial interests, and especially destretive of the comforts and happiness of

the working classes of our fallow citizens."

Then follows a series of resolutions, respectively denonneing its alleged effects upon various classes; the inpury it ney do to the farmer and wool grower; to manyfacture s of woollen yarns; to the woollen manutacturer; to the manufacturer of cotton; to the manu fucturer of iron-workers in iron; manufacturers o drings, glass and chemicals; of hars, caps and bonnets; of leather; of salt, sugar, cotton bagging, &c. We extract also the subsequent resolutions:

"Resolved That we are appointed to the bill reported by the committee of manufactures, in the house of representatives, because it is generally similar in its provis-, res, and obnoxious to the same objections as the bill of he secretary of the treasury, because in the change of d thes which it proposes on woul and woollens, it desgrower, by diminishing his market, in the omission of an adequate protection to the woollen manufacturer; the duty on woollen warns being the same, and on fiante haizes, and some other description of woollens, . . of less than is imposed on the raw materials; and cause it admits all manufactures of vool, or of which and is a component part, costing not more than 30 cts. A meeting of a similar character has been held in Duchcas, one of the great wool counties of New York. They too becathed a kindred spirit, and shopled the fellowing. with other resolutions:

Resolved, The case look upon the hill reported by the
