PRINTED AND PUBLISHED BY J. [illegible]
PRINTER FOR THE STATE, AND FOR THE PARISH OF [illegible]

NEW ORLEANS:
WEDNESDAY MORNING, JUNE 27, 1838.

FOR GOVERNOR,

A. B. ROMAN.

Extract from the Journal of the Senate of the 6th Feb 1838.

Resolved, That the Senate of the State of Louisiana do approve of the general course of the administration of the late executive, A. B. Roman; and that he carries with him in his retirement from office the grateful remembrance of the members of this body.

Resolved, That the President of the Senate be requested to send a copy of this resolution to Mr. Roman.

Extract from the Journal of the House, of the 3d Feb 1838.

Resolved by the House of Representatives of the state of Louisiana, that the administration of the government of the state by the late governor, A. B. Roman, has been marked by wisdom, firm ess, and a judicious and unwearied zeal for the public service; that in the execution of the laws, he has exhibited fidelity, and in the numerous and important appointments it has fallen to his lot to make, he has manifested impartiality, and a single regard to the true interests of the state; and that he retires with the full and entire approbation of the House for his official conduct, and with their personal esteem and regard.

Resolved, That the Speaker of the House transmit to the late Governor Roman a copy of these resolutions.

Representative, 1st District, to Congress,

JOHN SLIDELL.

FOR THE SENATE OF LOUISIANA

ALBERT ROA.

The Election.

The nearer the period of the election approaches, the more loud and rejoiced are the vaunts of the opposition. They assume a swaggering gait, confident aspect and boasting language in the vain hope of arresting the rapid advance of public opinion which believes his true prospects in reality as wholly desperate. They publish letters from their friends in the country. No more statements of which are so notoriously unfounded as to excite a suspicion of their authority. What, for instance, would be told that a Committee of highly respectable gentlemen" declare that the district in which we live rises scale will turn in favor of the partisans of Mr Prieur has a decided majority over the partisans of A. B. Roman, while the town of Carrollsburg and Lafourche Interior he will divide his votes equally with Mr Roman, we are compelled to say to him either that the truth is not their object or that we were exercising upon the credulity of the public, or were trying to bear the paper that gave it with gullibility, or that we were most outrageously deceived in the true political opinion. We have only read with gentleman from these parishes, who having long residence and thorough acquaintance with the sentiments of the population are somewhat better calculated to report fully and faithfully the feeling of the people in relation to the candidates. Without a single exception they inform us that Mr Prieur stands but no slightest chance of competing successfully with a rival, save in the parish of Assumption where he will run Mr Roman closely, and may possibly beat him, to use their expression, "*by the skin of his teeth*" In Assumption, Mr Prieur will poll a few votes, but a fair majority for Roman is certain. In Terrebonne, Mr Prieur cannot, for the life of him, gain a minority suffrager, and in Lafourche Interior his chance is equally hopeless. *This may be depended upon.*

An extract from the Franklin Republican, after acknowledging that in the last election for governor Wm Sadler's majority in the county of Attakapas over Gen Dawson was about 600 votes, tells the monstrous and incredible tale that this same county will give a majority of 900 votes to Mr Prieur, making a difference only of 80 or 1 at once the last gubernatorial contest. Now what possible reason can there be for the assertion of such a ridiculous falsehood? Mr Roman is a more popular man than Gov White. The sentiments of the inhabitants of the county still remain unchanged—their political principles are invariably the same. How therefore can the wonder working change come to have taken place, not only passed our comprehension, but exceeds every thing like probability, and proves how feeble must be the hopes of a party that is buoyed up and sustained by such labourious and extravagant assertions.

We are confidently and in no attempt at boasting, that Mr Prieur will not obtain a preponderance in eight or nine in the state. No man will be elected governor by a majority such as he may have been put give to a candidate for this office. Even such a defection may exhaust the resources in vain devices to circumvent the partisans of M Roman, and neutralize their exertions. This can in other be fulfilled incapacity by over-weening confidence, or reduced to despair by the studying boasts of their opponent.—Calm, vigilant and active, they conduct the canvass with energy and, above all, labor indefatigably, to secure his election, not but success will be obtained without a struggle, but to avoid his majority and augment his triumph.

We are pleased to see the unanimity with which the democratic journals sustain Mr R A. We are gratified at this, but has a good example of his success, and deserves the unfailing attention to be created merit, offers no full evidence, as to the public confidence in the democratic party. The city and country journals Advertiser abuse Mr Roman in whipers on the streets and in the parishes of Assumption, while the Louisiana Advertiser abuses Mr Roman openly in the face of the public. Such is the difference between the conduct of the democratic and whig press. The democratic press is open and manly, while the whig press is secret and sneaking. The democratic press is open and manly, while the whig press is secret and sneaking. The democratic press is open and manly, while the whig press is secret and sneaking.

John Slidell will advocate those principles of Democracy which give a poor man a claim to the rights of citizenship in the full sense of the term. He is in favor of the extension of the right of suffrage. He is not only opposed to that cardinal principle of Federalism that would make property the test of merit and wealth a qualification for office. His opponent is to elevate the poor man in every prerogative of a free citizen to an equality with the rich.

John Slidell will oppose the re actionary designs of Mr Biddle and his *United States Bank*. He will oppose any monied power which can set a moment's warning at defiance the whole commercial interest of our country, and plunge it into overwhelming influence. He will go for the people, against foreign influence—against a blood aristocracy—against a close Federal Aristocracy—against doing a lot of those who wish to bind the south to the car of Henry Clay, the purse proud enemy of emancipation.

In fine, we will vote for John Slidell, here as we do for the cause of democracy to be essentially interwoven with the liberties of our country, and because we feel that Whiggery and Consolidation are but antinecessary stepping stones to despotism and oligarchy. We can not support Mr Roman, because we believe that his election would be a triumph of Federal candidate who would be hostile to the democratic party in the construction of the golden throne on which they to dip hope to place the financial Nicholas Biddle, while their point of divinity, Henry Clay, is to be seated by his side.

Young men of Louisiana! Creoles of Louisiana! We call upon you to support the Democratic candidate. We invoke your aid to elect the individual who sustains the right of suffrage and Republican principles, in opposition to the contracted and aristocratic principles of Federalism. Vote for John Slidell.

(COMMUNICATED.)

John Slidell—Reasons for voting in his favor.

[illegible] the result of national [illegible] opinion, which acting on the [illegible] of democracy has done the duty [illegible] the [illegible] Whig party, [illegible] system, and giving a more healthy action to every [illegible] part. We look upon the triumph of democracy as [illegible] of moral thunder rattling and roaring through the political atmosphere Peculiar excitements, in this country, are positive ben fits when they pass as natural processes to carry off evil and vent up gaseous, which [illegible] if retained and their discharge demanded from by a [illegible] nation at the polls. Now unless the Democratic Candidate for Congress be elected of the enamied struggle, the reaction of which we speak will not occur, and the Federal system with all its manifold and pernicious principles, will still prevail among us, continuating the spirit of our republican institutions and engendering discontent and disgust, among the friends of a Democratic government.

We sustain John Slidell. We will vote for him because he is a Democrat. We will vote for him because he will stand forth in the Council Hall of our country, the unflinching advocate of Southern measures and interests.

We will vote for John Slidell because he will fearlessly oppose the Whig Abolitionists of the North, who will make a bold attempt to introduce their incendiary schemes at the next session. We will vote for John Slidell, because we feel assured that we shall have no odious and stupid harangues on a "*Sugar bill*," and there with, some published to be as a *laughing stock* to his constituents.

We shall vote for John Slidell, because he is a character of impressive oratory, a gentleman of extensive attainments, a sound and logical reasoner, and an honor to Louisiana. We shall vote for John Slidell, because, if elected, he has intimated his intention to appoint no officers to obtain sufficient Congressional access for the removal of that clog to our commerce, the obstructions at the mouth of the Mississippi.

John Slidell will advocate those principles of Democracy which give a poor man a claim to the rights of citizenship in the full sense of the term. He is in favor of the extension of the right of suffrage. He is not only opposed to that cardinal principle of Federalism that would make property the test of merit and wealth a qualification for office. His opponent is to elevate the poor man in every prerogative of a free citizen to an equality with the rich.

John Slidell will oppose the re actionary designs of Mr Biddle and his *United States Bank*. He will oppose any monied power which can set a moment's warning at defiance the whole commercial interest of our country, and plunge it into overwhelming influence. He will go for the people, against foreign influence—against a blood aristocracy—against a close Federal Aristocracy—against doing a lot of those who wish to bind the south to the car of Henry Clay, the purse proud enemy of emancipation.

In fine, we will vote for John Slidell, here as we do for the cause of democracy to be essentially interwoven with the liberties of our country, and because we feel that Whiggery and Consolidation are but antinecessary stepping stones to despotism and oligarchy. We can not support Mr Roman, because we believe that his election would be a triumph of Federal Aristocracy, and the indomitable energies
