DYEING AND SCOURING IN GENERAL.

NOTICE—Messrs MONDELET & Co have the honor to inform the public, that on the 20th inst they will open a dye and scouring establishment opposite the Orleans Hotel, A DYEING AND SCOURING Establishment.

The knowledge they have gained in the first houses in Paris, and by a diligent study of chemistry applied to dying, induce them to hope that no exertions will be felt in entrusting to them for dying or scouring, cashmeres either for dying or scouring, colored or white, they are that such articles will be so carefully dyed and properly attended to as at Paris. Those who may honor them with their confidence will be convinced of their skill, by the care and elegance of their work, and by the saving imparted to it.

They dye and scour all kinds of articles, such as stuffs, muslins, mousselines, shawls, crapes, veil, &c, without pleats or figured, straw hats, furniture covers, carpets, church ornaments, gold and metallical cassocks in silk and velvet, silk stockings; they clean silk dresses without changing the colors. By new chemical processes they can clean gloves, and with good print, without changing the appearance of new materials. They clean and dye kid gloves, all kinds of feathers, gentlemen's clothing without taking them down, and giving them the appearance of new articles. They dye clothing black for mourning in twenty-four hours, and warrant it with certainty to the colors. They likewise re-dye black stuffs, giving them various colors.

Terms moderate. m21—3m

AT THE FINE GREEN OAK OF SILOE.

NOTICE TO PERSONS RESIDING OR PASSING IN THE COUNTRY.

Cool spacious and airy buildings in the midst of a large and shady fishing, delicious promenades, a choice table and faithful and obliging attendance.

A bar, copiously supplied with the choicest wines and liquors, has been established on the grounds, and an extensive Billiard Room, in the wing of the house at the times which are proffered to guests.

For the convenience of travellers, Madame Fredat has had a large omnibus constructed, a barf which enables steamboats to land passengers at all hours.
