

SSP Resource Evaluation Form			
SSP Partner Name	Infinite Computer Solution		
Candidate's Name	Pradeep Kumar		
Date of Birth (DD/MM/YYYY)	DOB		
Passport Number			
RR Number			
Interviewed by IBM in Past?	Y/N	<input checked="" type="radio"/> N	No
If yes, Position/Date Meritrack Test (<3yrs)	Y/N	No	
Skill Ratings	(Scale 1-5)*		
Technical Parameters			SSP's Rating
Skill	BI Reporting Tools		4
Total Technical		4	
Behavioral Parameters			SSP's Rating
Communication			4
Teaming			4
Flexibility			4
Skill 4 (If SSP want to highlight any Specific Skills)			
Total Behavioural			4
1 Novice; 5 Expert			
Comments / Remarks (If any)			
Declaration by SSP			
A) I verified the candidates experience in the applied skill areas for the number of years quoted in the resume			
For External Candidates only			
B) Resource confirmed that he/she has not attended IBM interview in the last 6 months			
Date			Name & Designation

Name as appears in passport	
Nationality	
Passport Number	
Passport valid till	
Travel readiness – Visa status	
Visa valid till	
Date of birth	
E-mail ID	pradeepkmsbi@gmail.com
Contact details – During office hours	07385749396
Contact – After office hours	07385749396
Preferred time for interview	
Lead time required to arrange interview at a time other than preferred time	
Contact details of SPOC (Name / contact number)	
Specify if candidate is internal / external	
Time to join / relocate once selected	15 Days
Open for relocation to India (For on-site candidates)	Yes

Name: Pradeep Kumar
Contact Number: 07385749396
Lotus Notes ID: pradeepkmsbi@gmail.com

PROFILE

Highly motivated Business Intelligence professional using SQL Server 2005/2008 and Microsoft technologies, with 3+ years of experience in Report Development, data integration and manipulating the data sources to support management decisions. Proven history of utilising available resources effectively, demonstrated leadership, teamwork skills as well as ability to work under minimal supervision.

TECHNICAL SKILLS

Microsoft Technologies

SQL Server 2008 Reporting Services (SSRS), SQL Server 2008 Integration Services (SSIS), SQL Server 2008 Analysis Services (SSAS), Excel, PowerPoint.

Databases

SQL Server, ORACLE, MS Access

Software

Visual Studio, SQL Server Business Intelligence Development Studio, Java, JavaScript, C, HTML, CSS, XML, SQL, ASM8085, ASM8086

Servers

Windows 2005 and 2008, Bea Web Logic 9.x and Tomcat 6

EXPERIENCE

• Working as MS BI developer in ELVISSOFT, from June'06 to September'08 and March'10 to till date
Professional Experience:

- Having 3+ years of experience in IT industry, currently working as MS BI Developer
- Having 2+ years of experience in Business Intelligence Domain
- Having 6months of experience as SQL Server Developer
- Having good knowledge and work experience on Business Intelligence Tools
- Experience in developing ETL strategies using SSIS
- Experience in creating Jobs, SQL Mail Agent, and Scheduled SSIS Packages
- Dimensional Data Modelling and Cube development in SQL Server Analysis Services (SSAS)
- Knowledge of creating calculating measures and dimension members using multi dimensional expression (MDX)
- Supported team in resolving SQL Reporting services (SSRS) and ETL related issues
- Excellent communication skills bridging Client Interaction and Team Management
- Strong analytical, problem troubleshooting/solving skills, self-starter
- Expert in providing Training in Microsoft BI tools
- Having good knowledge in Object Oriented Programming
- Having strong analytical and problem solving skills affording timely solutions with good communication skills

Project: Griffon Bank

Client: Griffon bank

Duration: Mar'10 to till date

Employer: ELVISSOFT

Environment: MS BI, SQL SERVER 2008

Description:

GriffonBank is one of the largest bank in West Indies and a leading player in the financial markets and providing services throughout West Indies. The main aim of this project is to develop a Data warehouse for Griffon Bank in order to maintain the customer details throughout West Indies and also to maintain some financial services that are running by the Griffon Bank. We are extracting the data monthly from SwedBank branches throughout West Indies by using Griffon Bank Acquisition Gateway. Transform the data by using SSIS Data Flow transformations and loading into Data Warehouse.

Responsibilities:

- Importing Source/Target tables from the respective databases by using Execute Package Task& using Control Tasks in SQL Server 2008 Integration services
- Development of packages according to the ETL specifications for the staging area & Warehouse data loading using SQL Server Integration Services & SQL Server 2008
- Used transformations like Derived Column, Conditional Split, execute package and execute SQL Task to load data into Data Warehouse
- Created reports by using SSRS

Masters Programme: Computer Science Business Intelligence

School: Northumbria

Duration: Sep'08 to Feb'10

Location: Newcastle, United Kingdom

Highlights:

- Around 180 hours of Instructor-led training in Microsoft SQL Server Business Intelligence Technologies
- Areas of study and hands on Projects Included (SSIS) SQL Server Integration services, (SSAS) SQL Server Analysis Services, (SSRS) SQL Server Reporting Services
- Creation of Star and Snowflake schemas, OLTP and OLAP model conversion through demoralization, Handling slowly changing dimensions

- Developed several summarized and detailed reports which included pie and line charts, trend analysis reports and sib-reports according to BI requirements
- Implemented a credit card fraud detection solution as dissertation project
- Additional reporting areas covered Excel Pivot tables, Deployment to SQL server, data driven scorecards
- Key product areas also include data driven subscriptions, SSRS report subscriptions
- Applied analytical skills and business principles to decision making with respect to operational and strategic activities
- Developed financial planning, reporting, and information models which satisfy regulatory consideration

Project: Captaris Business Information Delivery Solutions

Client: Captaris Canada

Duration: Sep'07 to Aug'08

Employer: ELVISSOFT

Environment: SSIS, SSAS, SQL SERVER 2005

Description:

Captaris Business Information Delivery solutions help organizations automate the information and document flow throughout the information lifecycle (capture, process, manage, deliver.) With a comprehensive suite of software and services, Captaris helps organizations to grow revenues and increase profits while meeting compliance goals.

We are extracting the data from Capataris Work Flow System from Bellevue, Calgary; transform the data by using Integration Services transformations and loading into Data Warehouse.

Responsibilities:

- Importing Source/Target tables from the respective databases by using Execute Package Task using Control Tasks in SQL Server 2005 Integration services
- Created Event Handlers for the Packages Using Event Handler Tab
 - Used Control Flow Tasks like For Loop Container, For Each Loop Container, Sequential Container Execute SQL task email task and Data Flow Task
 - Extensively used Derived Column, Row Count, Data Conversion, Conditional Split and Aggregate
 - Developed Reports in the form of Matrix and Table using SQL Server 2005 Reporting Services

Project: Aristotle - ETL Process

Client: Aristotle

Duration: Nov'06 to Aug'07

Employer: ELVISSOFT

Environment: SSIS, SQL SERVER 2005

Description:

Aristotle is a leading Political Data Provider Co. in U.S.A. The Project involves developing a set of scheduled ETL SSIS Packages, which pulls information from a variety of resources like Dept. of Motor Vehicles, National Change of Address.

Responsibilities:

- Responsible for all ETL operations within the Engineering group including client feeds, warehouse loads, and data extraction
- Manage a team of database developers to support the Business Intelligence and data services needs of the enterprise
- Actively engage in design discussions for all Business Intelligence and database initiatives

SQL Server Developer

Project: Agenda Systems

Client: SOMMET TECHNOLOGIES

Employer: ELVISSOFT

Duration: Jun'06 – Oct'06

Responsibilities:

- Installed SQL server 2005 in production environment
- To perform various administrative related activities pertaining to databases and Performance
- Create/Alter user database
- Maintaining Backups and Recovery Strategies
- Ensuring that Data server & Backup server are up & running fine
- Refreshing the development databases with production dumps using native backup and restore
- User management like Adding users
- To interact with users to solve performance related issues and ensure smooth running of system
- To Create views, triggers, stored procedures

ENSEMBLE

Software Engineer

As a part of academic dissertation I have developed the Credit Card Fraud Detection using data mining techniques: A system responsible for identifying fraud in credit card transactions as quickly as possible once the credit card fraud has been perpetrated. This was the only project which was awarded with commendation among 48 other projects.

EDUCATION

Post Graduate Degree (MSc): Concentration in Computer Science

Post Graduate work, emphasis on Business Intelligence using SQL server, SQL server Integration services, SQL Server Analysis Services, SQL Server Reporting Services, .Net Framework, Data base design.

Bachelor's degree (B-Tech) : Concentration in Computer Science

Graduate work, emphasis on specific programming related subjects and languages including C, HTML, CSS, XML, SQL, ASM8085, ASM8086.
