

MediaWiki Translation Sprint

Siebrand Mazeland

Community Manager

translatewiki.net

MediaWiki

- MediaWiki is the software Wikipedias and sister projects run on (~800 wikis - 20,000,000+ pages)
- Hundreds of thousands installations elsewhere
- Usable in over 300 languages
 - ~7,500 Languages classified

WIKIPEDIA
The Free Encyclopedia

User Interface Localisation

- **We interact better with software in our native language**
- Localisation is the process of translating a product for use in a language
 - **Interface text <- today's sole focus area**
 - Icons
 - Symbolism/culture

translatewiki.net

- Platform for free and open source software localisation
 - **MediaWiki <- today's sole focus area**
 - OpenStreetMap, FreeCol, FUDforum, WikiReader,
 - iHRIS, Mifos, StatusNet, Encyclopedia of Life,
 - Okawix, MantisBT, NOCC, Kiwix, Open Images, ...

Getting started

Register a user

- Go to <https://translatewiki.net/wiki/Special:UserLogin/signup>
- Fill in the form
- Click create account

Log in / create account

Getting started

User page, user language, translation rights

- Go to <https://translatewiki.net/wiki/Special:FirstSteps>
- Complete the tasks on the page

Getting started wizard - Configure your preferences

Welcome to the translatewiki.net first steps wizard. You will be guided through the process of becoming a translator step by step. In the end you will be able to translate *interface messages* of all supported projects at translatewiki.net.

Sign up - done!

Configure your preferences

Primary language: en – English

The primary language doubles as your interface language on this wiki and as default target language for translations.

Assistant language 1: Pick a language

Assistant language 2: Pick a language

It is possible to show translations of messages in other languages in the translation editor. Here you can choose which languages, if any, you would like to see.
