Circular—The government has received information that, in the United States of North America, meetings are called for the avewed purpose of getting up and fitting out expeditions against the Republic of Mexico, in order to send assistance to the rebuls, foster the civil war, and in high upon our country all the calamities by which it is followed. In the United States, our ascient ally expeditions are now erganized similar to that headed by the traitor Jose Antonio Mejia, and some have even set out for Texas. They have been furnished with every kind of arcmunition by means of which the revolted colonists are enabled to resist and fight the majon from which they never have received but immense benefits. The government is also positively informed that these acts, condemned by the wisdom of the laws of the United States, are also reported by the general government, with which the best intelligence and the greatest harmony still prevail. However, as these adventurers and speculators have succeeded in escaping the penul ties infliced by the laws of their own country, it becomes necessary to adopt measures for their punishment. His excellency this president ad interim, anx ious to repress these aggressions which constitute noonly an offence to the sovereinty of the Mexican nation, but also to an evident violation of international laws as they are generally adopted, has ordered the following decrees to be efforced.

1st. Foreigners landing on the coast of the republic or invading its territory by land, armed and with the intention of attacking our country, will be deemed pirates and positively in import either by sea or land, in the places occupied by the rebels, either arms or aumunintion of any kind for the use of them will be dee obile-Master, rill leave New Orleans at 1 past 2 o'clock, P.
