Washington, July 6, 1863.—The following facts have seen obtained from a source which guarantees their correctiones, and the statement may be relied upon as strictly true:

On Statuday, the 4th instant, the rebel gunboat Drayon came down the James river with a flag of true. Acting Bear Admiral Lee rent up an officer to meet it, when it was ascertained that Alexander H. Stephens and Commissioner Ould were on board. They represented that they were the bearers of an important letter from Jefferson Davis, Commander-in-Chief of the Army and Navy of the Conleterate States, to Abraham Lincoln Commander-in-Chief of the Army and Navy of the United States, and requested permission to proceed to Washington in the Drayon and present the letter to President Lincoln in person. They declined to reveal anything further in relation to their mission than is above stated. Admiral Lee, of cour e, had no authority to grant their request, and they concented to wait upit the could communicate with Washington and requested instructions. The morning a special Caulines meeting was called to consider the matter. He accordingly telegraphed the facts and requested instructions. The morning a special Caulines meeting was called to consider the matter. mimportant affir, and as the employment of negro troops, &c.

No decision was arrived at, and the Cabinet meeting was accordingly adjustmed until to-morphy, and similal Lee was instructed to accertain if possible the object of the mission. In the meantime, however, the true containing the rabel ambiguadors had turned about and steamed up the fiver, without any parting saintation or explanation, and thus ended the mission. sion. A gentleman just arrived from Richmond who left the jday before yesterday, easy great constertion prevails there. The defences are occupied shiely by jarmed citzons, and fave are entertained that Lee will be one of and Richmond
