**Our Quality Assurance
Is Your Peace of Mind.**

MERI is your global electrical-mechanical OEM manufacturer. We specialize in plastic mold, plastic injection, sheet metal, gravity and investment casting, SMT and Through-Hole PCBA manufacturing. We are also one of the best manufacturers in the power conditioning technologies in its class. Our fruits include manufacturing for some of the best known brands in the industry. Our products passed some of the world's most stringent agency approvals.

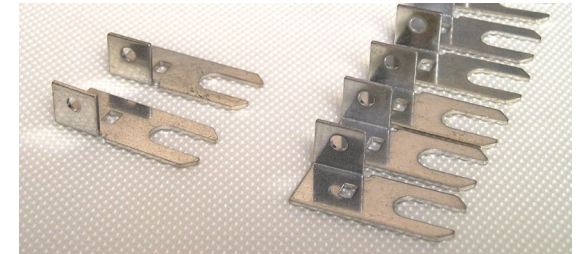

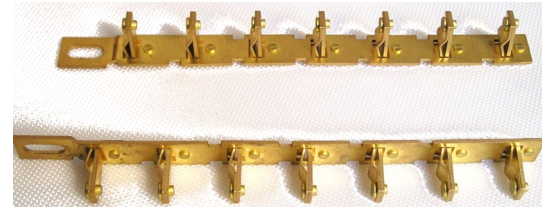

We can only succeed if you succeed first. Therefore we spare no effort to protect your interest and intellectual property so that you can have a peace of mind in outsourcing the manufacturing to us.
