the ship, or a steam boller of the strongest description. They will vary from 130 to 170 feet from the keel to the truck; each will be 3 feet 4 inches in diameter at the deck,

crush them is, and ist them fall over the sides immediately. All the main and topmast yards of the square-riged masts will also be of iron plates. The main yard will be 130 feet long, and lighter than if made of wood. As there is no dock large enough at the entrance to take in the Levisthen, when she needs cleaning, as will have to be "grid-ironed:" that is, run aground on rows of piles along the Mersey's side for the purpose, and the tide, of course, will leave her dry at each low water.

HAVANA.

ARRIVAL OF THE CAHAWBA. ARRIVAL OF THE CAHAWBA.

The United States mail stamship Coheeder,
J. D. Bulloch, commander, from New York
via Havana, arrived yesterday, having left
the latter place on the 18th instant. Lent
being auch a solemn time in Havana, our
readers need not expect any thing new in
either the fashionable pr commercial line.
Business is very dull, and the market has
very little life. Prices have gone up very
auddeely, however, atthough there are but
few buyers. Stock of sigar on hand, 30,000
boxes. Exchange on London, 12 percent
premium; New York, ipper cent.—Hittle doing: New Orleans, 24 premium. Freights
have been in less demahd for the past few
days, and no improvement in rates. The
harbor is perfectly crowded with shipping
of all nations, among which, however, the
"stars and atripes" predominate.

(On the 18th off the Mannach

Paris, in the English language. It is styled: The Paris Exchange, and is published weekly, under the direction of a committee of bank-ers, and others, members of the Bourse at Paris. Its object to facilitate a better knowledge of financial and commercial en-terprises in Prance. We have no doubt at will provas unseful percendical. It is estimated that the total cost of co. pieting her fittings, putting on board storetc., and making the Levisthen in all respe ready for sea, will not exceed £120,000, an ready for sea, will not proceed \$120,000 and that the time required will not extend be yould the month of July. It has been proved that eight anchors are not sufficient to hold her at moorings during only a half gale, and she has been supplied with ten, five at the atem and rive at the stepn. The masta are being made at Millwall; six in all, three square-rigged, and three rigged with fore and aft sails. They will all be composed of plates of wrought iron an inch thick, and riveted together in the same manner as the sides of

terprises in France. We have no doubt it will prove a useful periodical.

Dispatches to the New York papers say:
Judge Douglas has been confined to his house for several days by severe slokees, but will resume his place in the Senate some time. The pronounces the reports as week. The pronounces the reports the provide of the property of the provide of provide of provide of the provide of provide of the provi 3 feet 4 inches in diameter at the deck, the weight varying from 30 to 40 tone, exclusive of yagds or rigging. In case of it be-coming necessary to cut away the meats an apparatus working by means of a power-ful sorew is made to compress the two sides together in such a manher as to completely

Franco-Ralien, February 25th, says that Mu-sard will depart on the 1st of March for the Franco Italies, Polyuspy 15th, says that Munard will depart on the lat of March for the
United States, having been engaged by Uliman, at a salary of 40,000 france and four
thalf benefits, (we presume for one year.)
The concerts, says the Cesurier, will alternate with the representations of the opera,
and will also be given with the singers at the
opera.—Thalberg, Vieuxtemps, &c. Among
