search the whereabouts of knowledge

Sturdy, aesthetic and adjustable, the library rack units need to store and protect books withstanding the test of time. High visibility is the key, wherein the reader can quickly scan the books while standing.

library furniture

'Search' stands apart with its non-conformist looks, design and modular construction, designed for modern libraries

Features & Benefits

- The bottom three shelves of each unit are at a designed angle that enables quick locating of books/references
- Quick identification of categories through A5 size acrylic signage board on the side of each module
- Individual rack signage for easier sub-category identification
- Suitable for books of different heights
- Available in single sided and double sided configurations with main and add on modules
- Supporting library furniture accessories like Trolley and Reading table
