The Baton Rouge Advecate, having exhausted its own logic, and extinguished its own light, endeavoring, in vain, to guil the people from List Bovereignly in the Kanesse bill, calls to its aid the profound logic and enlightened mind of the Natcher Free Trader.

The alternocratic oracle says: That Democratic oracle says:

of the Natcher Free Trader.

That Democratic party originated, advocated and now maintain the Samme-Nebraska bill. The Southern seemines of that bill, and of the Democratic party, contend that it endorses the doctrine of Squatter Sovereignty. How will you determine whether it does or does not? Of course, by the very provise ions of the bill itself. Well, then, what tree into the bill provide? It cleans that it reselves to form and meaning is to leave the seems of intent and meaning is to leave the seems of any Territory or State "perfectly seems form and regulate their domestic loss any territory or State "perfectly and palpably this; that the Congress of the United States conferred upon the people of the Territories mentioned all the powers it possessed to regulate their own domestic concerns. The Democratic party, we repeat, has endorsed this principle of the Kansar. Nebrasks bill. And for doing than, it is charged with endorsing the decirine of Squatter Soversignty, because Congress posses the power to abolish slavery in the Territories, then the Democratic party, in sederating this bill, andorses also the doctrine of Squatter Soversignty, because Congress has conferred upon the people of the Territories all the power it possessed to regulate their own domestic oonders. But it is equally plain that, if Congress posses the power to abolish slavery, he cause they have no power species all the power to possessed to regulate their own domestic oonders. But it is equally plain that, if Congress has power to abolish slavery, he cause they have no power so abolish slavery, he cause they have no power so abolish slavery, has no power to abolish slavery, and if the people have no power except that conferred by Congress, it follows, as a matter of course, that such a power does not rest in the Territories to abolish shavery in the Territories to abolish shavery on the possess that the conferred to abolish shavery is the follows, as a matter of course, that such a power does not rest in the Territories Legislature.

or establish, prohibit or abolish slavery in Territories. One-half of the doctrine the Free Tradar admits, the other half rejects. It says:

"But it is equally plain that if Congress does not possess the power to abolish slavery in the Territories, then the people of the Territories have no power to abolish slavery in the Territories have no power to abolish slavery: This is plain enough. But Kanasa has extended, by law, slavery: Where did it obtain the power? From Congress? No; ivr. if Congress could grant the power to prohibit slavery in Territories. By the State constitution, it may be established or abolished.

That is the logical inference of Democracy. But Squatter Sovereignty in the Territory, and the state of the total state of the tota

These Democratic opponents of Mr. Buchanan, we learn, go for Fremont.

"We do not make this statement for the sake of effect abroad, or to wrong Mr. Buchanan's irrieds here or elsewhere, but as we believe them to exist. It was not, however, true, and from the precautions taken to repressignly attempt at rising, is not likely. The secret therein press has, however, just issued another proclamation to the people, calling on them to agitate firmly and quietly.
