CASES OF SCROFULOUS ULCERS.
New York, Sept 10, 1800.

This may certify that in the fall of ricks, I was seized with a swelling in my neck and face, which afterward ulcerated and became large ghastly ulevers in my neck. After trying several physicians to no advantage, I went to Philadelphia, and placed myself under the care of 17s. Physic and Beach, when, after repeated salivations to no effect, I was pronounced sterly incurable. At iterwards both wenty bottles of Swaim's Fancers and right bottles of Potter's Catholicon, with no material benefit. Desparing offlife, which had now become a burthen to me, I returned to my parents in New York, in 1829, and gave myself up to a lingering death. Hearing of the great success of the Indian's Pancers, hower, in cases similar to my own, I was presented to try it, as a last issert. To my great surprise, as well as estification. I zeon bound inyself-paidly recovering, and upon taking seven butters, the ulcers healed and the case preferctly well in the course of two months, and have remained so ever since. I make this statement and wish it published for the benefit of those who are suffering under a similar accreditions or syphilitic affections, that they may know what has cursed one who has suffered every thing but death, and who considers his life saved by the above syrap.
