Since the new postal law made most everything mailable matter, a vast deal of small and valuable marchandise, (such as watches and lipschirty,) has been sent through the post office, and Uncle Sam has become the great competition in the express business. Consignors by the mail have an idea that if their parcels should be lost, the post office department will pay the damage; but this is not the fact. Uncle Sam won it allow a cent for lost money, drafts or valuables of any kind entrusted to the mail.

By the way, mail-robbers who had no indecement to steal letters containing drafts, notes and checks, because of the booty, now have a great temptation, for the new arrangement loads the mails with parcels of diamonds, watches, &c., &c., which the dishonest post office hand or other third, may readily convert into cash.

We had a capital shower last night, about 6, which lasted qualit? o'clock. There was heavy thunder, but the atmosphere is warm and sticky. We are told that the cholern has made its appearance in Brochlye, which would be a healthy city if it had a proper sewerage:

O BIO AND WISCOSSIN—A correspondent of the New York Tribuse writes as follows:
NORTH BENNON, Mahoosing Co., Ohio, Aug. 22.
Pray, never again put down Ohio as one of the inobiful States. Indiana and Michigan may be doubtful, but Ohio is for Scott. Every body was disastisfied when Taylor was nous nated, and many abandoned us every body is satisfied with Scott's nomination, and those who left use on Taylor are coming back by haudreds. I coold give names, if I chose. Many who vated they been mistaken in the vote of any State, and cannot be now.

From Wiscossin we have words of cheering import. One writer says:
Your readers will perhaps wish to know how Wisconsin will vote. From what I have learned the Michigan will yold the state, I am satisfied the Michigan will yold. From what I have learned the mod their parts of the State, I am satisfied the Michigan will yold the state, I am satisfied the Michigan will yold the state, I am satisfied the Michigan will yold the state, I am satisfied the Michigan will yold the mad their rights; that General Scott was fairly nominated by the Whig National Convention in India seems to be stealing a march on the Christian missions there. The Latter Day Saints in and within forty miles of Calcutta are one handred and ninety two, of a whom one hundred and seventy are ryots or an interest the biobandases. Nearly all of them were professing Christians before becoming Mormons. There are also many others who desire to be come Sainta, and are only waiting to be baptised by Elder Willis. Whito Convention of the State of New Jersey, which was held at Trenton on the 3d linet, was summerously attended, and its proceedings was marked with the greatest enthusiasm. The Hom. Joseph C. Hornblower, was appointed President, together with a large number of Vice Presidents and Secretaries; in the list of whom are some of the first names in the State. After passing a series of resolutions warmly ratifying the National Whit norminations, the following electoral ticket was appointed:
