at a point on the byon Laforche near the town of Thibodeaux, and terminating on the river Misassiophie are or in the neighborhood of Jefferson College, in the parish of St James—the route of which road hash been marked out and surveyed by Geo. T. Dunbar, E-q., engineer of the board of public works, under the state of the season beautiful to the description of the state of the season beautiful to the description of the state of the season beautiful to the description of the season beautiful to the season of the	motion, referred to motion
der a resolution of the general assembly of this state.' Mr. Burke, on behalf of the finance consuitive to who a was referred such part of the governor's measure as relates to the banks, and also, the bill entitled, 'An act to compet the banks of the state to resume specie payment.'	The City Court, duy and with the De Du. 1838 7692 1 18
specie payment. Brg feave to report: That the action of former Legislatuses in relation to the Brinks, although the result of laborious investigation into their condition, dif not accomplish the end most remerably desired at the time analysts and adopted. Soot remerably desired at the time analysts and adopted. Adopted.	100 1800 1
tenance of spec payments on the part of those insti- tutions. This was the result of circumstances to avert which bath legislat we action and formed skill were found to be incompetent; and it remains a mis- ter of regret that through the exercise of either of these powers this desirable position of our Banks could not An act providing for the sale of the appartenances. And,	BY M EARNETT. See 1830 692 60 1830 692 60 1830 692 60 1830 18
powers this desirable position of our Banks could out be attained. Their excanded condition, which led to their suspension in 1837, inspetted the adoption of a source of curtainment in their business that has generally been athlered to. In the pursuit of this course, observing a just regard for their own safety, and the convenience of debutes the length of the control of the convenience of debutes the length of the convenience of the length of the convenience of the length of the	g of lands in the time and referred manufactures and referred manufactures and referred manufactures and possess the control of the control o
convanience of debtors, their leniency is exacting a bill entitle! An act granting to the parish of general feature, demanded alike by their relation to she public, as well as by the advantage which it afforded to their stockholders; for when exercised with gradeace at has secured to the Banks the collection of ordered for a second reading on to me.	of Livingston the on over a portion of Livingston the one over a portion
predicate it has secured to the Banks the collection of debts that must have been loss by proving that action, and in addition, have caused the useless secretic of their delicars' property. Akthough contrary to use principle to countenance in any manner the non-fulfilment of their obligations to the public in the columnon of their notes in was in was due a bill entitled.	De day of the second of the se
to the public in the redemption of their notes in signal case, which it is believed no Legislature in this State will ever deliberately sanction; yet in view of their present condition, a unsty the amount of their circulation and deposits, when contrasted with the amount of species and other cases; in passes; in; it must be con-	appeal in criminal De.
we have no cause of apprehension as to the ability of senate he appointed to examine into the the Banks to meet all their obligations. It is this mitterest of the public in these institutions, in contradiation that of the stockholders, which we have among our immediate thicks to protect. We are not second reading on to improve.	Date
among our immediate distinct to protect. We are not called on to regulate Banks for the benefit of stock-holders, to whom powers, messaary for that object, have already been delegated through the charters given there; having at the same time the common postestion of the law in the exercise of their right; but children, and Allen Demery.	Mr. Davis, their at the senate had be. Dec. 15 20 40 57 32 50 50 50 50 50 50 50 50 50 50 50 50 50
we should legislate now for the protection of note holders and depositors who is interests should be guarded by the saintary exercise of the power of the Legislature. In no way then could this power be so happily enforced as by the adoption of some plan by which their issues should be confined to a limit suited to the justice, and for other purposes.	the house was its the house was its the house was its difference in the bill on- the house was its difference in the bill on- the house was its difference in the bill on- the house was its difference in the bill on- the bill on- the bill on- the house was its difference in the bill on- the bill on- the bill on- the house was its difference in the bill on- the bill on
their issues should be confined to a limit satisfit to the interest of all parties, and which should maintain that condition of their affairs as would equalise these is such with the value of specie; but to regulate their action in this particular we have not at command the means to judge of the extent of business which they	tan. 16, 180. 77 m. In the parish of In the parish of W. E. Ronge, Value of the Obstructory of September 1975 of 1
should transact, to lay down arbitrary rules for its limitation, therefore, would be to establish what is almost certain to prove fullactions. This matter of contraction and suspension of itself, while left to the Banks to determine, should be regulated by the slaliny of the country to pay is included down as princing from Jarrich of Ouschite, and for other purp	ate, the signature still writing ball still be signature between the signature sig
