DENTISTRY.—By a new method at one sitting Dr ACHILLE LION, Dentist of the Faculty of Paris, inserts one or more sets of teeth on gold plates, by which he contracts for ten years. The guarantee is limited to the ch. fronttooth of the upper jaw—the others being inserted in the same manner.

Dr. A. Lion has but one office in the city, No. 106 Royal street, between St. Louis and Conti streets, where he may be seen every day.

Consultations and operations for diseases of the mouth. may3

PLATINA CEMENT.

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he supplies with success, instead of plugging decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, which is entirely mineral, is introduced in a pasty state into the cavity of the tooth, and speedily acquires the hardness and consistency of the enamel of the tooth when in its purity. It will last for many years, and will in no manner affect the tooth, but stop to ponder extraction unnecessary.

Apply at No. 106 Royal street, between Conti and St. Louis streets, fronting the Louisiana State Bank
