OFFICE, 88 CHARTES ST.

THE DAILY BEE.

MONDAY MORNING, MARCH 31.

THE WHIGS REDUCANTEURS.

In our columns to-day will be found an address adopted by a number of the members of the General Assembly recommending the reorganization of the Whig party. It will be seen that a suggestion is put forth for a meeting of delegates from the various pariabes in the State, in an old-fashioned Whig Covrention, to convene in the city of New Orleans on the second Wednesday in June mont, and then and there to place in nomination a State ticket. The gentleman who sent us this circular states that, but for the haste with which it was drawn up and published, it would have received the signatures of many more members of the Legislature.

The Whigs throughout the State will of course be the most competent judges of the propriety of this movement. To us it is assuredly not unexpected. It has been evident for some time that the opposition elements, as well in Louisians as in other States, have been greatly encouraged and incited to union by the demoralized and dissentient condition in the proposed by Mr. Hams proved dingularly manucoesful. Whether this proved dingularly manucoesful whether the sum requisite under the existing law at \$4 a child. There are 76,000 children, recovered the support of the was subsequently paid out the sum of \$300,000. Where the result of the incapacity of the School to provide any subsequently paid out the sum of \$300,000. Where the result of the incapacity of the School to provide under the sum requisite under the existing law at \$4 a child. There are 76,000 children, recovered the support of the school by giving a dollar more for each child, than to reduce the mill tax. for some time that the opposition eventues, as well in Louisians as in other States, have been greatly ancouraged and incited to union by the demoralized and dissentiant condition of the Democratic masses. The administration of Mr. Eccassas, it must be confessed has proved singularly nuasuoessful. Whether its ill fortune and its consequent unpopularity are the result of the incapacity of the Executive, the treachery of his political advisors, or, as seems most probable, of the inherent impossibility of maintaining in strict cohesion the forces of a party which is apparently divided by hostile principles, are points which we are not at this moment disposed to discuss. The main fact we hold to be indisputable. The main fact we hold to be indisputable. The financial and political concerns of the country are allke disordered. The domestic policy of the Government is ill-defined and unsatisfactory; the foreign policy creates almost universal discontent. Under these circumstances the citizens who in times past constituted the opposition who in times past constituted the opposition

who in times past constituted the opposition of the Democracy very naturally conclude f the country they are rallying togeth y leave to the gentlemen who have taken the initiative in this movement. In affording hem the use of our columns for the disse nation of their address, we are not to be us derstood as committing ourselves to the ex periment of the revival of the Whigparty esy which, for the sake of " auld lang syne,

Serr on a Marriage Corragor.—When Col. Thorne's daughter (of New York) was married to the Baron de Pierres, in Paris, some years aince, abs received a dowry of the value of \$74.241, to be secured by a mortgage on her family's estate, known as "Einwood," of forty acres; the dowry to take effect on the demise of the Colonel and his lady. This marriage contract was executed in Paris under secured in this goometry, and compliance refused on the ground that contracts of this nature made in France can not bind property in the United States.

This sait was brought by the Baron and his wife, and tried in 1857. The Court returned a verdict for the specific performance of the contract. The defendants appealed from the decision; hence its argument at the present time before the Supreme Court. The forty acres of "Entwood," situated near Bloomingdale, H. T., are now worth over \$1,000,000.

The standard of the control of the c
