THE BEE.

PRINTED DAILY, BY F. DELAUN.

NEW-ORLEANS, WEDNESDAY, JANUARY 30, 1828.

Mr. M'Sherry, the administration candidate, in Adams county, has been elected to the state legislature, by a majority of 50, over Dr. Hall, the Jackson candidate.—Philadelphia Gazette.

Legislature of Maryland.—ANNAPOLIS, January 1, 1828.

At 10 o'clock, this morning, the House proceeded to the election of a speaker. John G. Chapman, was put in nomination on the part of the friends of the administration, and Francis Thomas, (of Frederick,) was nominated by the friends of General Jackson.—Mr. Chapman received 41 votes, and Mr. Thomas 35.—Philadelphia Gazette.

HARRISBURG, Jan. 5, 1828. The administration convention, which met yesterday and to-day, have nominated Richard Rush as Vice President. The offer was first made to Governor Shulze, and it was then proposed to place him at the head of the electoral ticket. He refused both. One hundred and ten members were present.—B.

(By the ship Frances.) LONDON, Nov. 23. City, Thursday Evening.—The City to-day has been inundated with reports of the most warlike description, which created considerable alarm amongst the merchants, jobbers, and speculators, on the Stock and Exchange, &c. At a very early hour the following notice was posted at Lloyds, from their Agent at Leghorn, dated Nov. 10:— "There is a report here to-day, that the Turks at Navarino fired from their forts on the combined fleet leaving the port, and they had sunk three ships of the line and six frigates."

We have been favored with an extract of a private letter from a young gentleman on board his Majesty's ship the Attilon, in the Bay of Navarino. It appears that the Turkish ships were still on fire, and blowing up two days after the action. Numbers of unfortunate Greek slaves were chained to the deck, and left to perish by their insatiable foes; no means of succour from the British could be resorted to, as the ships were blowing up every instant. It is added, that they have still a fleet of twelve sail of the line and some frigates up the Dardanelles, most of the frigates carrying from 48 to 68 guns.

It was stated that letters from Berlin had been received this morning of a very late date, which, if any credit can be attached to the reports contained in them, were of the utmost importance; they state that war was inevitable; that Austria was making the most formidable preparations; and that Prussia had engaged to furnish the emperor of Russia with 50,000 auxiliary troops, for whose services she was to receive a part of Russian Poland. The general feeling at Berlin was said to be that nothing could prevent a war taking place. It is now said, that by the decision of the last Cabinet Council, the parliament will meet in January, and not in February as stated by some of the papers.

The Gazette of last night contains an Order in Council, directing that with a view of putting an end to the depredations committed upon the commerce of His Majesty's subjects in the Mediterranean, by armed vessels cruising under the Greek flag, instructions be issued forthwith to his Majesty's naval forces in the Mediterranean, authorising them to seize and send into some port belong to (or being under the power and protection of) his Majesty, every armed vessel which they shall meet with at sea, under the Greek flag, or fitted out and armed at any Greek port, excepting such ships of war as are belonging to or acting under the persons exercising the powers of government in Greece; and that the vessels so seized with their crews shall be detained until his Majesty's further pleasure should be made known.

(From the New-York Br. Post, Jan. 7.) The government of Columbia has publicly recognized the debts which are due, as well out, as in the Republic, and pledged for the future payment of interest and gradual extinguishment of the principal, 1st, the entire tax on Tobacco; 2d, the eighth of the product of the custom; 3d, the product of the vacant lands; 4th the product of the mines; 5th, the principal of church livings, which are redeemed in money. Among the debts thus recognized, are the sum of 2,000,000 sterling, contracted for at Paris, March, 1822, and the sum of 4,750,000 sterling, contracted for at Calais, in April, 1824, each bearing an interest of six per cent.

The House of Representatives of South Carolina have voted 99 to 12 to impeach Wm. D. James, a Judge of S. Carolina, for "misdeemeanor in office," and appointed a committee of five members to prepare and manage the impeachment.

CONGRESS.—Thursday.—The only matter of much importance referred on, was the following in the House of Representatives: Mr. P. P. Barbour submitted the following resolutions: BANK OF THE U. STATES.

Resolved, That the committee of ways and means be instructed to enquire into the expediency of providing by law for the sale of that portion of the stock of the Bank of the U. States which is held by the government of the U. S., and the application of the proceeds thereof to the payment of the public debt.

The most unwise, impolitic, and hastily conceived project developed in this resolution, was urged at some length by the mover—mainly on the ground that the stock of the United States Bank, being now at a premium of 23 per cent. the government would make a good speculation to sell out at that price its seven millions! One fifth of the whole stock; and this appears to have been urged without the least doubt in the mind of this mover, as to the effect of thus throwing into market such an amount for sale. Happily Mr. M'Duffie and Mr. Gorham both took immediate occasion to express their entire dissent from the views of Mr. Barbour, and the resolution was laid upon the table—where our correspondent says it will be likely to lie undisturbed.

We hope not—we hope it will be called up, and negatived by a vote so decided, as to allay at once the inquietude to which such a resolution is calculated to give rise. We regret that our limits will not allow us to add a few remarks on this subject.—N. Y. American.

From the Richmond Whig, Dec. 19. Anti-Jackson Convention.—We are gratified to find from the returns which have been made, that all the counties of the state, with a few exceptions, will be represented in the convention to be held in this place on the 31st of January. The convention will, without doubt, be the ablest body which has assembled in Virginia for a number of years, and the influence which their deliberations are likely to have on the people, have struck a panic in the hearts of the opposition, which drives them to the bold and reckless assertion that the vote of Virginia will certainly be given to Gen. Jackson. At this time we believe Jackson to have a majority in the state; but a powerful change has taken place in the last few months, and we are warranted in the conclusion that if it advances as rapidly in the next twelve months, her vote will yet be given to Mr. Adams. Members of the Legislature bring us cheering accounts from various parts of the state. Several Districts, it is said, are strong for Adams; and many counties heretofore supposed to be unanimous for Jackson are going over to the side of the administration, for our parts we see not the smallest occasion for despondency. The strength of the administration has proved itself greater in Virginia, than our most sanguine hopes believed. Let our political friends but do their duty, and all will be well.

MUTINY.—Capt. Cook, of Boston, commander of a Dutch country vessel, was risen upon by his crew, consisting of natives, and after a spirited resistance during which many of the mutineers were killed, he was at length overpowered, and together with the mate, the only whites on board, were murdered and thrown into the sea.

From late Foreign Journals.—According to a parliamentary report of the 5th of April last, there were in Scotland and Wales 172 brewers, 900 distillers, 64,773 inkeepers, of which 23,197 brewed their own beer. The number of barrels of beer consumed in England, Scotland and Wales, in the space of three months from the 5th of January to the 5th of April, 1827, was as follows: wholesale brewers, 1,177,127 strong beer, 254,495 small beer. Inkeepers, 627,715 barrels first quality, and 134,000 second do. Others, 9188 barrels. The number of bushels of barley used by the brewers of England, Scotland, and Ireland, amounted in the year ending April 5, to 22,851,615.

Steam Gun.—It has lately been shown that a gun-barrel may be connected with a high pressure steam boiler, as with a chamber of condensed air; and as the steam can be supplied as long as water remains in the boiler, if bullets be allowed to fall into the barrel fast enough, from a chamber or magazine above it, a hundred may be thrown out every minute with the same force and precision as if each issued from a common piece of artillery. The rapid succession may almost be said to resemble the issue of water from a jet pipe; and if such an engine could be used in a field of battle, the barrel of death, made to point gradually along a line of men, would mow them down like cornstalks before the scythe—none could escape. The horrible idea and proposal have been excused by saying that to prove the possibility of such havoc must have the effect of putting an end to war altogether.

AEBANY, Dec. 31. Dreadful Accident.—On Friday last, an accident occurred at Cooperstown, at the execution of Levi Kelly, for the murder of Abm. Spafard, which has no parallel in the history of accidents on such occasions. A very great concourse of persons had assembled to witness the execution; and a platform had been erected by Mr. Griffin, keeper of the hotel, for the accommodation of spectators. The platform, which was a sort of amphitheatre, was built near the scaffold, upon upright posts placed in the ground.—It was of considerable length and width, and was crowded with people. It is estimated that 2000 persons were upon it. Owing to the inclemency of the weather, nearly an equal number had assembled under it. When Kelly was approaching the scaffold the crowd upon the platform instinctively leaned forward to see the prisoner and the ceremony; when the entire mass moved forward, and fell to the ground, crushed such beneath it as could not escape. Fortunately its course was horizontal; had it been direct, hundreds must have been immediately killed. As it was, report states variously the death of from five to ten persons. Mr. Tracy, the engraver, was instantaneously killed. Mr. Williams died the same evening. A woman and child were also killed.—Many were wounded; and several so severely, that it was not believed they would survive.

In the midst of the confusion caused by this disaster, Kelly was executed. He met his fate with a sullen indifference.—Boston Patriot.

A manufactory of Queens-ware has been put in operation in Pittsburg, Penn. by Messrs. Frost & Vordrey. When it has become known in the country, we hope some will be altered, since royalty is fashionable on this side of the Atlantic.

ORIGANS HALL ROOM. THE FIRST SOCIETY DRESSED AND MASQUARADE BALL. Will take place on WEDNESDAY next, the 30th inst. To those who have subscribed, will be called to call for their Tickets on Tuesday the 29th.

DRAWING OF THE Public School Lottery. Admittance—One dollar. Jan 14

The fortunate OF P.V. St. Louis street, No. 37, opposite to let's Coffee-House.

HELVETIC INSTITUTION. In order to give greater latitude to his system of education, Mr. De Perren has invited, as a partner in his Seminary, Mr. J. W. Wheelwright, of Massachusetts, a young man recommended to public confidence as well by his talents as his personal qualities. Having been graduated at a college in New-England, Mr. Wheelwright will be enabled to take charge of the whole course of English instruction. The instruction of Mr. De Perren will thus offer to young men the double advantage of preparing some to be admitted into the colleges of the United States, and of furnishing to others a complete course of education adapted to the commercial and ordinary pursuits of life.

Mild regulations, but rigidly adhered to, will give to this seminary the character of an Helvetic school. In the proposed plan of teaching, the connexion between the memory and judgment will always be kept in view, and no pains spared to facilitate the attainment of different branches of study by the most simple and familiar illustrations. In a word, the object of this seminary will be the communication of valuable knowledge, and the formation of those mental and moral habits in young persons, which shall carry by the foundation for their respectability and usefulness in subsequent life.

The institution is already in progress, at the house of Mr. De Perren, No. 116 Royal Street. Jan. 22

REMOVAL. SULPHUROUS BATHS. DOCTOR RENOU, has the honor of informing his colleagues and the inhabitants of New-Orleans and of Louisiana, that he has removed his establishment of Sulphurous Baths from No. Ann Street, No. 122 to Barraks Street No. 156, at the corner of Burgundy in the house lately occupied by Dr. Formento.

It is generally known, how much benefit is obtained by sulphurous bath in cutaneous diseases, rheumatic complaints, psoriasis and other serious complaints, it is needless to quote here the numerous instances of immediate cure and relief afforded by the application of that remedy. Mr. Renou has availed himself of his removal, in constructing a new apparatus and making his establishment free from any kind of reproach that could have been made to the former one. The room for the reception of white people is totally separate from the one fixed for negroes. His new lodgings afford him the means of receiving certain number of sick persons wishing to board at his house. He has provided a spacious hospital, and his house being situated in a retired part of the town less crowded with houses than others, makes the situation perfectly wholesome.

Prices for 12 Baths, . . . \$ 16 .. " 6 9 .. " 1 1 50 For treatment of negroes per day, 1 .. Doctor Renou will however take with the persons who will apply to him all possible arrangements. During the last year of his practice in Paris, Doctor Renou has been intimate with the celebrated Dr. Ducamp inventor of the most efficient method of curing ischuria (retention of urine,) and he had especially selected himself to the treatment of that disease; he has now in his possession a complete collection of all the instruments necessary thereto. He may ensure to those persons affected with the above complaint, who will apply to him, a prompt and safe cure from his method of treatment. dec. 24

FOR SALE by the subscriber, 250 pieces best Dundee hemp cotton baggs 6 ft. full width. Dec 18. J.D. MARTINEAU
