New CELEANS, 12th May, 1832 On the invitation of Mr Dodon, a positior of Pencanslup in our city, up in the Carsinirian system; we ave carefully examined speciment of the writings of his pupils, whose ages range from 8 to 50 years

written through an entire course of instruction; and after having done so, it is with the highest satisfaction that we can test by to the rapid if not unparalled pro gass which they have made. From the specimens seen, and the examination of he system in de, we cannot wishhold the expression of a current opinion, that the system is greatly supe
