

INTERVENTION LOGIC FOR R2P BY ARI RUSILA

Ari Rusila's BalkanBlog <http://arirusila.wordpress.com>

INTERVENTION LOGIC		HORIZONTAL LOGIC	▲ ▲ ▲ ▲ F E E D B A C K Δ J
VERTICAL LEVELS			
↑	Overall objective: wider goal, a project is steered to its attainment.	<p>At all levels ►►►►</p> <p>1. Narrative description</p> <p>2. Indicators of achievement</p> <p>3. Verification methods</p> <p>4. Assumptions and risks</p>	
	Immediate objective: a desired situation after completion of a project. . It should be SMART (specific, measurable, accurate, realistic and time related)		
	Outputs are items of value developed by the project for the beneficiaries. With the aid of output resources, the beneficiaries should to achieve their immediate objectives.		
	Activities: to produce the outputs it is necessary to implement a number of certain activities (tasks and actions)		
↓	Inputs are the material, human or financial resources for the completion of the activities
