LIFE AT A WATERING PLACE—A correspondent of a St. Louis paper thus describes life at a wathering place in Missouri:

at a wathering blace in Missouri:

The programme of each day is similar to the iast. First, getlup barly, take a bath at the iron apring, then drilk a gailon of water or more, then on your why back to breakfast, stop at the magdesis apring, and drink a gallon, more or less: then, if your appealite is not good, go on to the sulphur strings, roll a game of ten pins, drink as much there as you have room left for, and then to breakfast, and can be a possible under the icrromantances. After breakfast drink again, pitch quoits, roll ten-pins and drink. After dioner drinks, and ramble through the woods in search of a cool spot; when found, if you are so forthanks as to have a good book and an agreeable bompanion, enjoy yourself, but don't forget, on your way back, to drink. After sepper drink and play entohre, during which time some lady will be found obliging enough to touch the galtar lightly. During this time you must drink.

YELLOW FAVER CASE IS THE BAY OF NEW YORK.—The New York correspondent of the Pthiladelphia Enquirer says that Dr. Gaun, the health officer of the port, makes the somewhat startling announcement this afternoon that there are now about a dozen reseals in the lower bay with yellow fiver on board. Most of these vees led are from the West Indias. The health officer complains that many saptains of vessels from infected ports make false reports as to the health of their crews, and he recommands, therefore, that in all such cases hereafter the party offsanding by prosecuted for perjury as the law directs.

A correspondent of the Philadelphia Inquirer with Kosernha's army says a lady resides near Tulishoms who has two sons in the rebel army, who, one day resently, passed through her ward in a line of skirmibhers in Gen. Bragg's force. About fiftees minutes after two other sons in our army, is an illinois regiment, passed the house with their regiment. She had not seen some of these for several years, and now met two in pursuit of the other two, fifteen minutes in the rear only brother against brother.
