Europe, &c , &c,

The London Hob's contends that the robels are not conquered, and Lee is as said as ever at Culpepper. It was believed at Frankfort that the Polish question would be settled by diplomary. The war panic had subsided in Paris. The La France says the news from St. Petersbury indicates a conciliatory disposition. It is reported that the Emperor of Austria and the King of Austria will sodu meet.

The London mousy market was easy.

New York, August & Akishanon papers of the 5th contain the following:

Orange Courthouse, Angust 5.—There was a fight at Brady's Station yesterday evening, between a body of Station; yesterday evening, between a body of Station; yesterday evening. Set we have a body of Station; we be pieces. Statist brought on the light by shelling the woods in which the Federals were concealed. The enemy responded, and the light became general, lasting from two c'olck until night. The enemy was driven within a mile of the Rappabannock river, when, they being heavily reinforced, our cavairy fell back. Our lose, six killed and eighteen wounded. All is quiet to day.

Trains from Culpepper yesterday brought nothing further of interest in relation to the battle at Brady's Station. Important movementa are taking place in our army, in order to provide against certain contingencies which may be developed at any moment.

Suptherin Plunder — Yesterday morning while on a vint to the affice of the Treasury Department in the old Planter's Bank, our attention was called to a quantity of silver-ware on a side board, consisting of maga, milk pitchers, sugar-bowis, coffee and teapots and a fine silver cake basket, which Col. Yestman informed be, much to our astonishment, had been taken by the Costombouse officers, whose duty it is to examine the baggage of those going North, from the private baggage of sone of the officers of the United States army, who had comes from below. We could hardly credit the fact that gentlemen, or those whom their position entitles them to be considered gentlemen, could so descend from their high estate as to be guilty of piffering such articles of household wares from any one noter the sun. We were told by our informant that the names of the officers from whose baggage they had been taken had already been reported to the Commanding General, and that he would without doubt order them to be at once dispracefully dismissed from the service — Memphia Argus. This of said bills were of the following banks, dates and numbers, viz Louisians State Sank, bill dated 27th September, 1.59, No. 13,3641... He charges that we are "in favor of peace, when it can be obtained by an application of the Golden Rule, 'Do unto others as you would have others do unto you.' We would sake the senior editor if he repudsates that Rule? If he does, we do not, and he is a very unsafe, and will prove a very unprofitable leader for others, whether pedagogical or editorial.
