Re: Receipt for Wikimédia France grant funds to Wikimedia Indonesia for
Javanese language Wikipedia revitalization project

Dear Mr. Coudray,

On behalf of Wikimedia Indonesia I would like to confirm that we have received grant funds from Wikimédia France with the amount of IDR 48,064,908.95 on 26 April 2012 via our Indonesian bank account number 121-0005003813 Bank Mandiri, Wisma Bisnis Indonesia, Jakarta.

The grant request is based on our discussion in Berlin Chapter's Meeting in 2011, with follow up in Paris Finance Meeting in February 2012, and finalized in Berlin Chapter's Meeting in March 2012 with Wikimedia Indonesia's Secretary General and Deputy Secretary General; Kartika Sari Henry and Ivonne Kristiani.

The grant request is to fund Wikimedia Indonesia's effort in revitalizing Javanese Language Wikipedia (www.jv.wikipedia.org) via offline activities combining outreach, training, and writing competition in March 2012 to March 2013 (one year duration) focusing in Semarang and outreach in Yogyakarta and Jakarta. For the complete timeline and effort please refer to this page (in English) http://meta.wikimedia.org/wiki/Javanese_Language_Wikipedia_Revitalization_Project_2012-2013

This effort is a follow up effort from 2011 where Wikimedia Indonesia managed to increase Javanese language Wikipedia contributors for seven months through writing competition. The previous effort in 2011 is expensive and time consuming, yet successful in increasing both contributors and readership. The Javanese language Wikipedia readership went up from 1.3 million readers to 2.5 million readers. The contributors went up from 1-2 very active volunteer contributors to 15 very active contributors, while active contributors went up for 10 people to 50 people. We believe this effort need to be repeated this year in order to increase the number of contributors until it reach a critical mass to sustain growth and form a strong contributor community of their own. To date intervention project is still very expensive and we need helping hands to co-fund the effort.

The Javanese Language Wikipedia revitalization project 2012 is a joint funding effort between Wikimedia Indonesia, Wikimédia France, and Wikimedia Switzerland as stated in the previous link. Most of the funding received from Wikimedia France will be used to do the groundwork, coordination, administration, publicity and ceremonial activities before and during the competition. In details it will be used to fund outreach materials (such as roll banners, posters, and banners), training infrastructure / equipment (such as portable routers and modems for trainer and selected

trainee), meals and transportation cost in 3 cities for trainer and trainee during training session, laptop / netbook award for winners, and judges committee incentives.

We believe that this grant will help revitalize Javanese language and promote the free knowledge culture. The competition itself will be held in six universities in Java for seven months, starting from September 2012 until March 2013.

We will be in touch with you for the project report and follow up via emails, and will send you the main receipts hardcopy for the funding usage in the project after the project is completed.

On behalf Wikimedia Indonesia, I would like to thank Wikimédia France for the grant. We look forward to more collaboration between our chapters in the future.

Yours sincerely,

Siska Doviana
Chair of Executive Board
Wikimedia Indonesia
