ment of Mr. E. G. Mungrove, is one toe note-insulty not to be generally known throughout our business against and our property-hold-ing population. It will so soon that the New

POINCELAIR.—At the extensive establishment of Mr. E. F. Mioton, No. 47 Royal street, be

s are not ignorant that for the past twelve the Ber has predicted the necessary di-more or less gradeal, of the old planystem, in the absence of Coole or some labor to replace negro slavary. It is own that we advised planters to antici-la necessity by partitioning their exten-dies of entirested hands into small farms plane the measurement of the plane who is always and the promise of planeers, and is sufficient with the opening some weep planeers, and those of the hardstone who is constituted the measurement of the opening some weep planeers, and the second with its mediate of planeers, and the second with the front of the opening some second with the policy recommended, time was not fully nipe for general inanguration. The habits and aptitudes of planeers, and those of the freedmen who constituted the mass of the labor that was at hand, combined with immediate circumstances affecting both classes to induce a continuance, modified by unavoidable results of the mew stuntion, of the old system. But it soon began to dispear that this prolonguation was but a such about the thought of the mew stuntion, of the old system. But it soon began to dispear that this prolonguation was but as make shift arrangement, and the fact is made more orident was all the soon began to dispear that this prolonguation was but a make shift arrangement, and the fact is made more orident was all the single more and the higher requirements of the higher requirements of the higher requirements of the higher requirements of the more more orident was a success. Sufficient evidence was afforded, by the range of characters on Saturday night, that the company in the main, had been selected with due regard for the higher requirements of the more original was a success.

Mr. Tilton gave a masterly exposition of the Mr. Tilton gave a masterly exposition of the miles. all, we will as economically recommend to explain in feasible to the feasible to

the population with a class which is extranely desirable on many accounts.

We are not aware, however, that any one has yet proposed a definite plan, with the content of source of source
