We stated in Friday's Traveller, that we had seen a private letter from San Francisco, dated Jan. 20th, which contained statements in respect to the gold mines, exceeding, it anything, the mavelousness of former accounts. It is postumarked at St. Louis, and came overland, no doubly, but by what particular route, we are not unformed. There is no impossibility or simprobability. There is no impossibility or simprobability. There is no impossibility or simprobability in letter traching us in 35 days from San Francisco. We are informed that a person was in this city on Saturday, who left
