OFFICE, 83 CHARTRES ST.

THE DAILY BEE. WEDNERDAY MORNING, FEB. 17.

The Mistick Krews of Comus celebrated, last evening, its second anniversary by a procession through the principal streets of the city, and by a bel seeped at the Galety mind of the First District has thus far decoded on the Galety Thesates. And attests at once their own diligence it the ability and skill of the teachers. In unper classes of the intermediate schools children appear to be thoroughly ground in grammar, to have made considerably and infarrally and faithfully the principal interest in the history of the United States. Fit likewise exhibit some elementary acts and the principal stream of the First District of the City as though they had never left the summits on Olympus, or the banks of the Biys. A listermediate schools are intended to do the course of studies pursued at the shool, allowed the deviation of the pupils of the school, allowed the deviation of the pupils of the school and the pupils of the school are or ought to be organised to the school of the pupils of th

nerr minds to more elevated and serious utiles than are pursued in the intermediate in-iois. The High School should be to the intermediate, what the college or university is to the academy. The High School has lofty retensions. Annually the pupils of the hird year's course undergo a rigid examintum, and if found proficient, are formally novested with diplomas. Let us see what here honorary marks of distinction estables to the Roser Huch School the correspondent th history, a slight smattering of Latin, one knowledge of algebra, geometry and an extremely diverging, regular compositions, a little assembly and chemistry, and an extremely diverdical study of French. This is both actif and a stream of the members of the committee, there are in the controlled Greek; it is insenficient, cause acarcely any one of these branches of education is mastered by the pupils. We are never seen a graduate of the High chool who could construe Tacitus, write a assable Latin composition, or speak half and a sentences of colloquial French. It follows necessarily that when the pupils leave the High School, their acquisitions are not yet respectable enough to ensure them almostom into the freadman's class of a manifer college.

Bepublican) of Vermoni, Leicher, of Yirnaver seen a graduate of the Right
and who could construe Tactura, write a
divide lain composition, or speak half a
sentences of coloquial French. If for
