AYER'S SARSAPARILLA,

A COMPOUND REMEDY, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater efficacy, as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Scrofulous complaints, and that one which will accomplish their cure must prove of immeasurable benefit to the afflicted, fellow-citizens. How completely this compound will do it has been proved by experiments in many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt-Rheum, Scald Head, Ringworm, Erysipelas, Itch, Scurfiness, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion. Each of these complaints, and indeed the whole class of complaints arising from *Impurity of the Blood*, is counteracted within the system by the operation of health, when taken in the spring, to expel the foul humors which then have become concentrated in the blood. Better a little in the spring than much in the hot summer. By thoroughly expelling these morbific matters, all disorders are stopped in the bud. Medicines can do no more. Nature, properly assisted, does the rest. The first and best step to a healthy condition from any disease or foul eruptions and ulcerous sores, through which the system will relieve itself, is to purify the blood. If not sought to do this through the natural channels of the body, the same ulcerative action will set up in other and more important organs. Whether the stomach, bowels, kidneys, or vital blood wherever you find its impurities bursting through the skin in pimples, eruptions, or sores, cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Keep the blood pure, and the health will follow. Purify it, and every function of the body will be felt, people enjoy better health, and live longer, for eradicating the disease which, if suffered to remain, would make them the victims of premature decay. The popular belief that Sarsaparilla is of little value can be no longer entertained by any intelligent person who will take the trouble to inform himself of what this compound will really do. Hundreds of certificates of its virtues have been received by the proprietor, from men whose characters for truth and integrity are above question, and whose professional and social positions are a sufficient guarantee that they would not make a statement which they did not know to be true. Many of these certificates have been published in this country, and have attracted universal attention and belief in the wonderful cures they record. Many others have been received from the Old World, and will be published in due time. The following are a few of the many which have been received:
