THE CUBAN MOVEMENT.

The remore from Washington relative to the intentions of the Executive with respect to Cube, begin to thicken. The language of the Casen is decidedly belligerent, and we take it that the Union is a sort of echo of President PIERCE. It seems stoggather certain that our naval force in the Gull of Maxico is to be largenaval force in the Gulf of Mexico is to be large-y increased, so as to be prepared for any overt act that may grow out of the ambiguous posi-tion between the two countries. The Wash-ingtoe latter-writers are full of speculation on the Cuban theme, while the papers generally give it their serious attention. It is agreed on all sides that the Cabinot is divided on the question. Mr. PIRKE and JEFFRENO DAVIS being strongly inchead to active measures, while Makey throws the softim weight of his immerses infequed in the scale of peace and calm sabmission. Mr. PIRKE, however, des-pite bis pre-sent warline attitude, has evinced

The Captain General and his cordinates seem to us to manifest an unactuable indiscretion and recklessness to the tent, indeed, that it might be thought they are desirous of provoking a war, and had nated the cost and the consequences in adnoc. We say nothing of the execution of TRABFER, for that was an act of unavoidable por. Figgsburg, April 18—The steamers R.J. Ward seed down at 11 A. M., Hebrashs at 3, and Heary outsess at 4 P. M. to-day, all bound for new Or pal Atlantic ports during the last were as follows:

ICE CREAM ESTABLISHMENTS.—It will be seen by the advertisement in our columns that Mesers LERYNER & Co., successors to J. Virgent, have opened a superb los Greem and Sherbet Saloon at the corner of St. Peter and Royal Streets, similar to the one at the corner of Canal and Carondelet, Orders may be left at either place. The reputation of these confectioners for delicacy and exquisite taste stands deservedly high, and we can assure the lovers of Ice Creams, that finer, cooler and more pleasantly flavored articles were never manufactured. Give them a trial.

Thanks to the officers of the Aleck Scott for late St. Louis Papers.

Large Cargors.—The fine American ship Transport, Capt. Higgins, was cleared yesterday for Liverpool, by Mesers. Giffeny & Lovell, with six thousand bales of cotton, and the ship North America, Capt. Danbar, cleared for the same destination, by J. P. Whitney & Co., with four thousand two handred and sixty-nine bales—making, in all, 10,369 bales on the two ship4.

A somewhat similar story was related a few days since by Jadge Edmonds, of this city. A female called upon him and stated that she was greatly troubled by noises, the tippings of tables, breaking of crockery, &c., and asked his advise as to the best means of "laying the glost."—
He discovered that the lady considered "spiritualism" a hambag, and at once accounted for the visitations; they were intended, he said, to convince her of her error. Bespitcism, therefore, in such matters, becomes expensive.
