AUTOMOBILE IN MINIATURE.

A MINISTER’S FISH STORY.
Mr. Waitman T. Safford, pastor of the Second Congregational Church, Brooklyn, N. Y.

The minister’s daughter was conversing with a classmate, who inquired of her if she had a favorite fish. The daughter replied no, that she did not, as she could not think of any fish that interested her. Her classmate then asked her why, and she replied: "Because I have always been taught never to speak of a fish in the presence of a lady." The classmate then exclaimed: "Oh! you never speak of a lady in the presence of a fish, do you?"

HYPNOTISM’S POWER.

Dr. Quackenbush gives His Theorized Famous Aid.

Mr. Waitman T. Safford, pastor of the Second Congregational Church, Brooklyn, N. Y.

Dr. Quackenbush has been giving his theorized famous aid, which is said to be a process that can cure all diseases. He has been lecturing on the subject all over the country, and has been received with great enthusiasm.

SAYE BROOKING GROVE.
The Corporation Notes That This New Name Is a Nonsense.

At a meeting of the members of the New York City Corporation, held in the corporation building, a resolution was introduced to change the name of Saye Brook from Saye Brook to Saye Brook Grove. The resolution was introduced by Mr. John Smith, who stated that the name of Saye Brook is not descriptive of the place, and that it is not in keeping with the surrounding scenery.

FLOOR OUT OF MILK.

According to a recent report, the milk industry in New England is in a state of collapse. The price of milk is falling, and the producers are losing money. The report states that the reasons for this are the overproduction of milk, the competition of other dairy products, and the lack of demand.

BIRTH OF NEW STARS.

Dr. Norman Lockey, a well-known astronomer, has recently advocated the theory that new stars are being born in the sun. He states that the sun is a large, glowing ball of gas, and that it is constantly forming new stars. He further states that these new stars are being formed in the sun’s corona, and that they are constantly being carried out into space.
