FOR THE PRESIDENT OF THE UNITED STATES,
HENRY CLAY.
FOR CONGRESS—FIRST DISTRICT,
GEORGE K. ROGERS.
SECOND DISTRICT,
EDWARD D. WHITE.
REPRESENTATIVE—STATE LEGISLATURE,
FELIX LABATUT.

NEW ORLEANS
TUESDAY MORNING, JUNE 27, 1843.

FOR NOMINATION OF THE FIRST WARD,
GUSTAVE CRUZAT.

WHIG MEETING—SECOND MUNICIPALITY.

A meeting of the Whigs of the Second Municipality will be held WEDNESDAY EVENING, 28th instant, at BANKS' ARCADE, at half past seven o'clock, P. M. The Whigs of the other Municipalities are respectfully invited to attend.—Several popular speakers will address the meeting.

By order of the Executive Committee:
L. MATHEWS, Chairman.
N. A. VIENNE, Secretary.

WHIG VIGILANCE COMMITTEES.—In another column will be found the Committees of Vigilance for the First Municipality. It is from the committees for the Second and Third Municipalities were formed.

GET READY—THE PROSPECT.

We would call upon the whigs of this city to get ready for the election. It is near at hand. But little time remains in which to perfect the organization of the party, and we counsel them to go straight to work. Our opponents are, perhaps, better disciplined and organized than the whigs are; but we feel confident that a Whig is to defeat will overthrow them, if the whigs of the city do forget their duty as they should. From the country parishes we hear the most encouraging accounts. Our friends below the city are alive to the importance of the contest and will doubtless turn out in full force. They have a right to expect that the city whigs will do their whole duty and we trust they will not be disappointed.

We notice with satisfaction that the whigs are becoming more and more aroused as the hour for the election draws near, and we cannot allow ourselves to doubt but a continuance of the good spirit will ensure the success of our candidate in the First District. The continued attempts to disparage Mr. Rogers, a man so well known and generally beloved by his fellow citizens, have recoiled upon Mr. SIDELL for whose forgeries attacks were made, it must be conceded that the latter gentleman's pretensions are feeble indeed, if they require the detraction of his opponent to make them conspicuous and we cannot imagine for a moment that the voters of the district will support a man for office whose friends find it necessary to disparage and sneer at his competitor, for electioneering purposes—more especially when that competitor is a man like Mr. Rogers, is a man of probity and intelligence and one who has proved himself a patriot by serving his country in a perilous and laborious campaign.

In the Second District, no one we believe, seriously doubts Edward D. White's re-election. He has been a faithful public servant and it would be a reflection upon the intelligence of his constituents to suppose that they would wish his services and upon their sense of gratitude a rejection of his claims to a re-election.

In the Third District, the locofocos base their hopes of success upon the Democratic Granite that they have for their candidate in the other section of the State. We are glad to see, however, that Mr. Labatut is making rapid advances in the good opinion of the people, and that he will obtain a far more encouraging vote than has been supposed by friend or foe. His talents under the disadvantages of having been but a short time before the district as a candidate. We cannot indulge any sanguine expectations of his success though we do not deem his prospects hopeless by any means.

From the Fourth District contradictory accounts are received by each party. Our opponents say that Mr. Morris will be defeated very easily; but we have no reason to be alarmed. The regular defection that is always the strong whig party in which Mr. Morris obtained a majority in consequence of his being a creole has given rise to apprehensions which we think unfounded. The district is regarded as safe, and we have every confidence in Mr. Morris's success.

From every calculation we can make, we feel quite confident that there will be three whigs returned to Congress, if the whigs of the city of New Orleans do not acquit themselves guiltily in the approaching contest. We would, therefore, again urge them to get ready at once and keep on until the business is done. Let them not be paltered by the apathy that has seized upon the whigs of other States; they should have the greater energetions to dispel the gloom that has fallen upon our party and give a warm and powerful impetus to the good cause.

THE LOCOFOCOS, it must be acknowledged, are an exceedingly modest and withal a very consistent set of gentlemen. In one breath they charge the whigs of Kentucky and even the State in the late appointment by Congress—to charge the absurdity of which is proven by the fact that the locos were in a majority in one branch of the Legislature, and the bill could never have been passed without their consent. But a more practical refutation of the charge, and a more complete exposure of its falsehood is seen in the vaunts of the locofocos that they will carry every—are MYRY Congressional District at the election next Monday; not even the Second District—the forlorn hope of whiggery—will they leave to us. ALEXANDRIA GAZETTE, according to the Richmond Enquirer, is going to walk over the course in the approaching election, and intends humiliating the whigs of Louisiana and Tennessee, and leaving Gov. WHITE in the Senate unopposed. STARKE is to beat ROCHESTER over 200 votes—that is the exact number agreed upon by the party. Dodson will of course be chosen with scarcely a show of opposition and Gen. Bynum is to overwhelm JOHN MANLY under a host of democratic votes. How astonishing that the State must have been gerrymandered by the sanguine whigs to enable the locofocos to—

THE TAX LISTS have been completed at the various polls for the present year, and we learn that there is more common than usual complaint among property holders to examine the lists, to see whether their name has been entered.

Every citizen should look to this matter, and see that he is not deprived of his right to vote, whose name does not appear on the assessment rolls, should procure his tax receipt for the last year, or some other, and take it with him to the polls. He will thereby avoid the tedious formality of questioning, and be enabled to deposit his ballot without unnecessary delay.

MURDER IN THE MASSACHUSETTS STATE PRISON.—CHARLES LINCOLN, a warden of the state prison, (Mass.) was murdered by a convict named ABNER ROGERS.—Name is assigned for the act, and Mr. LINCOLN was assaulted by all the prisoners on a kind pass and so limited towards the convicts as it was prudent for him to do. He was stabbed in the neck with a shoemaker's knife and expired instantly.

STRIKE AMONG THE NEW YORK SAILORS.—The sailors in the port of New York, some weeks since, struck for higher wages, demanding fifteen dollars instead of twelve dollars a month. A few days ago, the ship *Rochester*, a Liverpool packet fitted out for sea, with a full complement of sailors, at twelve dollars per month.—Those consigned in the strike bearing of this, proceeded on board the ship, broke open the forecastle, and took away the "dunnage," and carried away one of the sails, swearing the ship should not proceed to sea till fifteen dollars a month was agreed to be paid.

The police were informed of the nefarious proceedings, and under their direction the ship was towed to the Battery, and placed under the protection of the United States vessels *North Carolina* and *Independence*.

MATANZAS.—Schr. *Creole*, four days from Matanzas arrived at Savannah (Ga.) on the 16th instant. The *Republicano* of that city states that news reached Matanzas before the sailing of the *Creole*, that an insurrection had broken out in Jamaica, the extent of which was not known. An English brig was totally lost on the east end of the Island of Cuba—name not recollected.

LIGHTNING.—During the heavy rains yesterday, two houses were struck by lightning in suburb Marigny—Mr. Nadaud's, in Greatmore street, and Madame Duchesne's, in Victory street. Descending Madame D.'s chimney, the electric fluid broke in pieces the vases which were on the mantelpieces, and twisted the iron fastenings off the doors. Several children who were in a back room, fortunately left it a few minutes previous. At Mr. Naudaud's, the lightning also descended the chimney, dislodging several bricks, which had been struck from the top—the looking glasses on the mantelpieces were observed in pieces—the window glasses of both doors were shattered—and the facings of the doors ripped off, the electric fluid passing to the street. A person in one of the rooms at the time, was paralized for several minutes; and a young mulattoe was knocked down, but recovered without sustaining any injury.
(Courier of last evening.

THE BODY of a woman was found on a raft in the North river, in New-York, on the 16th inst. From her appearance she had been several months in the water. The Coroner rendered a verdict of "Death by drowning."

NAVAL.—The U. S. brig of war Truxton, Lieut. Com't Gee. P. Upshur, bound to Chesapeake Bay, being home the remains of the late Commodore Porter, went to sea from Hampton Roads on the 16th instant.

☞ A FIRE broke out in Boston on the 17th instant in a granite building on the southeast corner of Washington and Essex streets, which destroyed that and other adjoining buildings.

☞ The Boston papers of the 17th are full of the anticipated Bunker Hill celebration. It was doubtless a splendid and spirit stirring affair. To day's mail will probably bring full accounts of it.

A FUEL DEATH.—At a fire at Cambridgeport, Mass., a man named Osmyn Wright, was suffocated in his bed before he had time to escape.

THE RACES AT BEAUHARBOIS.—The Montreal Transcript of the 13th, gives some additional particulars in relation to the accident of the small [illegible] on the preceding day. The Transcript says:

They went to the house of Mr. [illegible] a farmer living on his bed and fractured his [illegible] life is despaired of: they also attacked Mr. [illegible] another of the contractors, who probably would have been treated in the same manner, but having a horse by, set off with only a few bruises.

Our informant states that they have threatened the lives of all the contractors, if their demands [illegible] not complied with.

Every exertion was used by those who had influence with them, to persuade them to keep the peace; but without any effect.

As a last resource, a small detachment of the 71th regiment, and about 30 men of the Queen's Light Dragoons, were called out, but when the riot act was read, and the rioters still refusing to disperse, the troops fired, and several persons were killed and wounded, the number of which could not be ascertained.

They have now dispersed, all directions in the woods, and knowned the troops as much as they could, who were only a mere handful in comparison to the great number of the rioters.

When our informant came away, the troops were preparing to attack them in the woods. A reinforcement of troops will be sent out this morning.

The Savannah Republican has a long and sensible article on the subject of the nomination in Georgia of Mr. Calhoun for the Presidency. The article is pretty pungent throughout, as will be perceived by its concluding paragraph; which is in the words and figures following:

"If an astronomer whose tables are all calculated according to the present position of the heavenly bodies were to look out some night and see the celestial signs all interchanged—if an Esquimaux Indian were in January to find himself sitting down by tropical heat or if a faithful subject of the Imaum Muscat should suddenly find himself alongside of a polar bear, amid polar snows, he and they would not, we could not, be more confounded, than are the people of the State at the unexpected note, which brays out in a portentous untuned Union voice, the name of John C. Calhoun and Mark A. Cooper, as *Democratic nominees.*"

A WHALE WRECKED.—During the shower which we had yesterday afternoon, between the two and three o'clock, there appeared to have been a small tempest which swept across the southern limits of Salem. We understand that a house belonging to the Wyman estate, and fortunately occupied by Mr. Brown, as a boiling house for oil factory, on the Marblehead Road, was completely demolished. The house was a two story, gamble roof dwelling, thirty by eighteen, pretty strongly built, and was undergoing repairs. It was completely removed by the wind from its foundation, to the distance of fifteen feet one way and ten the other; the posts were all broken off to the chamber floor, and the building afterwards totally prostrated, so as to be past recovery. The carpenters had just escaped to an adjoining house, when the overthrow took place. One of the chimneys of the factory was likewise blown down; an apple-tree in the vicinity, about a foot in diameter, was broken off four feet from the
