IS IN GOOD HEALTH

London Has Low Death Toll Compared

with Other Cities.

Preventative Tissue in British Mem-
branes—Prescribed by Physicians—

Cesar Cases

London—The Preventative Tissue in British Mem-
branes, as prescribed by physicians, has been a
definite protection against Cesar cases in London
and other cities. The tissue is made from ani-
mimal tissue, and is said to be effective in
preventing the spread of Cesar cases. It has been
found to be especially effective in preventing the
spread of the disease from person to person.

HEART BEATS ARE RECORDED

A new heart beat monitor is being developed in the
United States.

A new heart beat monitor is being developed in the
United States. It uses radio waves to record the
heart's rhythm and is said to be more accurate than
earlier methods.

BRIDE NEED NOT BE A PUPIL

A new trend in the United States is the idea of
brides not having to be pupils.

NEW YORK—The idea that brides must be pupils in
the United States is becoming increasingly
popular. Many brides are now choosing to
marry without having to go through the
rigors of school. The trend is being
welcomed by many young women.
