

A STUDY REPORT ON

MARKET POTENTIAL OF GENERAL INSURANCE BUSINESS AT CHILAKALURIPET AND SURROUNDINGS

Submitted to Hon'ble Chairman-Cum-Managing Director National Insurance

By

K. GANESH BHOOPAL RAO Branch Manager **National Insurance** Chilakaluripet Branch Office

ACKNOWLEDGEMENT

This is an occasion to know ourselves and "where we are" in the General Insurance Market in the vicinity. As such I convey my gratitude to our Hon'ble CMD "**National Insurance**" for giving me an opportunity to study the potentiality of General Insurance market at Chilakaluripet and surrounding areas. Since this study is going to help me, being a branch manager, in many ways such as knowing ourselves, laying a path to reach the targets, improving the brand image of "**National Insurance**" etc.,. I once again express my gratefulness to our CMD.

I thank one and all who helped me in providing the statistical data pertaining to the Insurance market at Chilakaluripet particularly to all the Heads of Branches/Divisions of Public Sector Undertakings at Chilakaluripet.

I also acknowledge the support given by our Chief Regional Manager Mr. P. Vijay Kumar and the encouragement given by our DGM Mr. Nadhamuni in preparation of this report.

I am deeply indebted to Mr. J. Venkatapathy Rao, AM our BO who extended his helping hand in collecting the statistical data from various sources such as PSUs, DIC and other local sources which enables me in concluding this Report. Finally I thank to Mr. M. Hasanali, Sr. DM, Ongole DO for extending his support in finalizing the report.

K. GANESH BHOOPAL RAO Branch Manager, Chilakaluripet BO

Objective of this Study:

To study the General Insurance Market Potential at Chilakaluripet as directed by the CMD, National Insurance and find out various methods to increase our market share and to tap the untapped business if any.

To draw an action Plan for completing the target and to increase the Company's share at Chilakaluripet:

Scope of the study

The study of potential of General Insurance business is concerned with market study i.e. Research and fieldwork. This study is going to help the National Insurance to find out Market potential and enables a comparative study with other companies. The study will help the company to assess their performance and improve it where it is lacking.

The study of market potential of general insurance at Chilakaluripet is very helpful to find out who are the market leaders in Chilakaluripet as well as overall analysis of potentiality, premium booking, modus operandi of premium procurement, other avenues of penetration into the market, position of the company while comparing other players in the market etc. Availability of time was also taken into account while deciding the particular method to meet the objectives. The entire study programmed was for the period of two weeks.

The subject of the study was initiated not only to know the potentiality but also to give suggestions related to the topic.

The study limits itself only to find out the General Insurance Market Potentiality at Chilakaluripet.

The main objective of this study is to know ourselves as "where we are" in the insurance market. To facilitate the above, a study is initiated namely "A STUDY REPORT ON MARKET POTENTIAL OF GENERAL INSURANCE BUSINESS AT CHILAKALURIPET and its SURROUNDINGS in Guntur district, Andhra Pradesh".

Chilakaluripet is an assembly constituency in Andhra Pradesh. Nearby villages are Thimmapuram, Edlapadu, Ganapavaram, and Nadendla which are Industrial estates in the vicinity.

Since we are operating from Chilakaluripet we have taken the area of operation as our study area. The area of operation includes adjacent mandals such as Edlapadu, Nadendla and

Prattipadu where many of the annexed industries are located. The main industries are located in Ganapavaram, Thimmapuram, Edlapadu, Boyapalem etc., on the NH-5 towards Guntur City, North East of Chilakaluripet.

Chilakaluripet has many small scales to medium scale industries. It has many cotton and spinning mills and few cold storages. Geographically the Chilakaluripet is surrounded by Guntur City 40 kms, Narasaraopet is about 20 kms and Martur (Prakasham Dist) is about 15 Kms towards south. It is also famous for jeep building industry. It is a small business centre fulfilling the needs of nearby villages and also has some Hotels and Restaurants.

These villages are mainly dependent on agriculture and more particularly they cultivate commercial crops such as Cotton, Chilies and little bit of tobacco. As such there is much cotton, oil, and rice mills have come up in late 80s. At present many number of spinning mills and Cold storage plants have been established in the neighborhood in addition to the Cotton and Ginning and Pressing factories.

Keeping in view of the above, we have taken up the study to know the General Insurance Market Potential at Chilakaluripet and segmented the market study in the following areas.

- 1. Actual Potentiality
- 2. Total net-worth Showing the present status in relation to the premium underwritten by all the Insurance Companies at Chilakaluripet
- 3. Customer behaviour Discuss about the modus operandi of premium procurement by the Insurance Companies
- 4. Focus Areas

The study undertook for two weeks. As we have to target specifically to various industries located in the vicinity for knowing their net worth, risk factors and premium being paid or premium paying capacity and to know the potentiality.

We have spent more than one week for the collection of data and scanning of data. This report shows detail work in the following neighborhood.

CHILAKALURIPET GANAPAVARAM NADENDLA THIMMAPURAM EDLAPADU BOYAPALEM PRATTIPADU (Part)

1. Actual Potentiality of General Insurance Market at Chilakaluripet:

As stated in foregoing Paras, the Chilakaluripet is an Industrial Area where many major industries are located: The list of Industries annexed herewith as Annexure – I and II. Annexure-I shows that there are about 50 Large Industries are located and approximate premium base of those industries would be around 300 lakhs. Annexure – II shows that there is an investment made in Small and tiny sector is about Rs.50.00 Crore in the area we have selected. Thereby we can assume that the existing General Insurance Premium Income (potentiality) against above portfolio would be about Rs.10.00 Lac in all. The components taken in arriving at such estimated premium income is Property Insurance, Motor Insurance and Personal Line Insurance covers belonging to above SSIs.

RURAL INSURANCE MARKET:

LIVESTOCK: In Rural Insurance the higher premium income comes from Cattle Insurance in the selected geographical area. As per the information received from Animal Husbandry Department the total population of cattle under above four mandals is about 50000 Animals which includes Dairies also.

It is also expected at least 50% of cattle is being insured with various Companies through Dairies as well by Govt. Hence the total potentiality of Cattle premium would be 25000 x 1.80% (the rate at present being charged on the cattle by the Company in Guntur District) = 90.00 lakhs.

Therefore the total premium potentiality would be around Rs.1.00 Crore in the vicinity. (However the other players like Oriental is charging @ 1.60% only)

JANATHA PERSONAL ACCIDENT, UNIVERSAL HEALTH INSURANCE SCHEME AND OTHER RURAL INSURANCE COVERS:

As per the 2001 census and population growth rate for the last 10 years, the above four mandals population is about 4.00 lakhs out of four lakhs population 2.00 lakhs are working men and women. Out of these two lakhs about 80% are engaged in Agricultural activities.

If not all the above but at least 50% of them are brought under the Accident & Health Insurance covers, a premium of Rs.20.00 lakhs can be generated.

OTHER PERSONAL LINE INSURANCE PROSPECTS:

As stated above, out of total populace about 1.50 lakhs are urbanites and literates where we can sell Traffic Accident Policies, PA policies and Health Policies. If we can tap such untapped business starting with 20% of them a premium can be generated @ 1000 per capita amounts to 30.00 lakhs.

As such aim of this study is to be Market research & find out the Market Potential of General Insurance business at Chilakaluripet and its surrounding areas. For this we have to know the various sectors of General Insurance Business Sources, modus operandi of booking the premium, Agencies involved in procuring the premium, references etc.

So, specifically the target of the project is to focus on tapping of the potentiality and to specify the areas of concentration. To capture the potentiality we have to study the methodology, mechanism and even infrastructure facilities for doing so.

2. Statement showing the premium underwritten by all the Insurance Companies at Chilakaluripet.

After studying the basic resources available for insurance market at Chilakaluripet we have collected the data pertaining to other three public sectors along with "National" which are appended here below:

Customer behaviour – Discuss about the modus operandi of premium procurement by the Insurance Companies

For this purpose a Questionnaire was prepared intending to be answered by other players' particularly public sector companies which gave a broader picture of business procurement by the respective companies. More thrust laid on the personal line insurance covers which enables us to know the source of insurance premium from various quarters such as Direct Walk in customers, Agency Force, Tie-up Business etc.,.

The questionnaire contains various aspects like Area of operation of BO/DO, Major portfolio, Marketing Staff, Walk-in-customers, segmentation of Business procurement within Chilakaluripet and outside Chilakaluripet etc.

The behaviour of clients in general was studied to know the ways and means of premium payment modes by them. It is found that the industrialists, entrepreneurs and other valued customers are placing their business only through the personal relationship with the insurers or with some references unlike metros.

It was seen in the private sector being operated at Chilakaluripet that they are underwriting retail business and booking the premium by keeping a cover note book with the RTA Agents or any other Agent situated locally since the Private Companies are operating from Vijayawada and rarely from Guntur.

After thorough examination of the data collected a final assessment is made and arrived at the requisite results as was intended before initiating this study. The summaries of results are as follows:

नेशनल इन्श्योरेन्स National Insurance

FINAL ANALYSIS OF AVAILABLE POTENTIALITY AND THE PREMIUM BOOKED OUT OF SUCH POTENTIALITY BY THE GENERAL INSURANCE MARKET AT CHILAKALURIPET AND SURROUNDING AREAS:

				TABLE-V
	Actual Premium Booked by Four Public Sectors and Private players	IN LAKHS	Premium potential in the vicinity of Chilakaluripet as per this study	IN LAKHS
1	Out of Total Premium booked by four Public Sectors (premium booked during 2009-10), the net premium booked at Chilakaluripet & Surroundings	369.43	Potentiality available from Large Industries located in and around Chilakaluripet	300.00
2	Premium booked by Private players	30.57	From SSI and other tiny sectors	10.00
			From Rural Insurance Sector	120.00
			From Accident and Health sectors	30.00
3	Untapped premium available in the local market	100.00	Other Miscellaneous Insurance	40.00
	Total Premium	500.00	Total potentiality of General Insurance Premium in the Study Area:	500.00

After collecting the above information, proper evaluation of given data is done. The result of evaluation is to prepare a road map for tapping the untapped business and to increase our market share at par with other companies.

Focus Areas

To draw an action Plan for completing the target and to increase the Company's share at Chilakaluripet:

AREAS OF OPPORTUNITIES

1) New SMEs coming up:

There are about 4 to 5 new Medium Scale Industries namely two spinning mills, one cold storage and a cotton mill are coming up on Narasaraopet Road, near to Narasaraopet and they come up within a month or two for Commercial production. Those should be captured by serious follow-up and with technical and rating competency.

2) Rural Insurance Market

As we are operating from rural area, this market should be tapped at once. Insurance companies are require a different approach of sales services with respect to meeting such challenges as low awareness, irregular incomes and geographical distances and cost of administrative charges which are uneconomical. The focus has to be on bulk coverage and quantum of premiums, such as adoption of entire Village, bringing their all insurance needs of one particular village under single roof. So that cost wise also it is viable.

3) Customized Solutions

Competitive insurance market exploring the new customer segments, it includes Health Insurance, UHIS, Individual Mediclaim, JPA, Traffic Accident Policies, Cattle Insurance etc., Having analyzed the portfolio in detail it is understood that most of the business is underwritten through the Agency force. We have also examined that the walk-in customers are drastically come down during the last three four years. As all the people are involved in developmental activities the time has become very precious and everybody is looking at service at their door step.

Hence, to emphasize on recruiting the Agency Force for which the BOs should be empowered to give advertisements in the local print media and as well in electronic media while inviting applications for appointing Agents. This should be an ongoing process and shall not be restricted or confined to any one time exercise or a period. Like in LIC every now and then with periodical intervals if we can mobilize the Agents, they are very good source for premium procurement particularly in rural areas. As the retail market is expanding in General insurance taping such market by the employees or the Company's marketing personnel many not helpful and even viable. Hence more thrust should be given on recruitment of Agents while facilitating the Officer-In-charges with the financial powers to the extent of news paper advertisement etc.

It was seen in the private sector being operated at Chilakaluripet that they are booking the premium by keeping a cover note book with the RTA Agents or any other Agent situated locally since the Private Companies are operating from Vijayawada and rarely from Guntur.

Further, we also should thrive for organizing Insurance Melas (trade fair/exhibition/demo) wherever feasible and possible. For example, a Traffic Accident Policy can be sold-out at any busy Petrol Bunk where two wheeler population visits in mass. Therefore, basing on the target group identified such type of special drives help us in increasing our market share.

As we have discussed above the modus operandi of booking the premium by private operators and their associates (Agents) and the rate of Commission to the Agents shall be increased at par with Private Operators to induce our Agents. At present the private players are paying @20% on Motor premium. They also keeping the Cover Note Book with them and operating from Vijayawada and Guntur. Having a Branch at Chilakaluripet, if we can offer the Commission at par with private operators, we believe that the same can be tapped by us.

WHAT IS NEEDED TO BE EXPLORED?

The Company at Chilakaluripet in general faces the challenge of competition from other players public and private. Therefore, to withstand in the market the following measures may help the Branch Office to increase its market share and also brand image at Chilakaluripet.

- 1) To focus on the retail market such as personal line insurance, Rural Insurance and to explore avenues available in the unorganized sectors.
- 2) As discussed there are many new projects (SMEs) are coming up in the vicinity where there is a need of Insurance. To collect the data of such new projects and to meet the CEOs and other officials of those companies frequently and to suggest them the proper insurance covers to cater their insurance needs with competitive quotes.
- 3) The core function is to generate awareness about the insurance products among the target market.
- 4) To empower the Branches to appoint Agency force and induce them with proper incentives. To increase the Commission to Agents at par with other private players.
- 5) Branding is the new key challenge in General Insurance market. In a competitive marketplace it will help the operating offices to increase its share in the local market.

National Insurance, Chilakaluripet BO Profile

National Insurance, Chilakaluripet BO was established in the year 1980 to cater the needs of various general insurance requirements in the wake of beginning of industrialization in the vicinity.

At present the BO staffed with 11 members namely:

Sl. No.	Name of the Employee
1	K. Ganesh Bhoopal Rao, BM
2	J. Venkatapathy Rao, AM
3	G. Dhanamanimma, AO

8	B. Srinaiah, Asst.
9	P. Sateesh Babu, Asst.
10	A. Jayalakshmi, Sub-Staff
11	P. Subbulu, FTS

METHOD OF DATA COLLECTION:

Primary Data:

The major source for collecting primary data has been the other public sector undertakings operating within Chilakaluripet and personal interview with the private operators operating at Chilakaluripet based at Guntur and Vijayawada.

The information given by them was the basis of this study and it is very much satisfactory and relevant to the subject.

Secondary Data: The sources of secondary data are;

INSTITUTIONS LIKE District Industries Centre, Guntur, and Spinning mills Association, Guntur etc.

REFERENCES:

- Internet, Other Company websites
- References from other company employees

QUESTIONNAIRE METHOD

This method is used to collect general information about the performance of the respective BOs and Dos located at Chilakaluripet like total Number of employees viz. agents, Development Officers, Direct walk in customers, Referrals' etc.

CONCLUSION

After all the research work it can be said that General Insurance companies have good Market potential in the vicinity and it is apparent that there is an untapped premium of Rs.100 Lakhs available in the local market itself. This study not only helps the operators in assessing themselves but also paves a way to understand the surroundings and enables them to proceed further with proper action plan and gain the desired results. So there is lot of opportunities to tap the market provided a suitable strategy is drawn and implemented while keeping in view of the suggestions made above.
