DR. DIFFERRON has the honor to inform the citizens of New Orleans that, having given up his office to Dr. Commingy, he trusts that those persons who have heretofore honored him with their confidence, will continue to extend it to his successor, who fully merits it by his attention and capacity.

Dr. E. Commingy informs the public that his office will be open from 9 o'clock A. M. to 4 P. M. at No. 28 Bourbon street, between Main and St. Philip.

Galvanic Rings and Magnetic Fluid.

THIS remarkable discovery which has attracted so much attention in Europe and recently in the Northern States, is now introduced for the first time to the citizens of New Orleans. It comprises an entirely safe and simple application of the Mysterious Powers of Galvanism as a remedial agent. The GALVANIC RINGS in connection with the MAGNETIC FLUID have been used with the most perfect success in all cases of RHEUMATISM, acute or chronic, appearing in the head, face or limbs; *Gout, Tic Douloureux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, Indigestion, Paralysis, Palsy, Epilepsy, Fits, Cramp, Palpitation of the Heart, Ague, Stiffness of Joints, Spasmodic Complaints, Lumbago, Neuralgia, Nervous Tremors, Dizziness of the Head, Pains in the Chests and Side, General Debility, Hysterics, Nervousness and Physical Energy, and all Nervous Disorders.* The FLUID, which is simply a nervous derangement of the digestive organs, they have been found equally successful. The Rings are of different prices, being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience.

The Galvanic Belts, Bands, Bracelets,

Are modifications of the invention, and are recommended in more chronic cases of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waist, arms, ancles, chest, or any part of the body with perfect ease. Any Physician or Druggist who is required may Cards be obtained, and no complaint in which the mysterious agent of Galvanism can effect, will fail to permanently relieved.

Christie's Magnetic Fluid

Is used in connection with the Rings and most in affections. This combination has been pronounced by the French Chemists to be one of the most valuable discoveries of modern Science. It is believed to possess the remarkable power of *restoring the nervous system to a healthy state of action*, by the means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

Christie's Galvanic Strengthening Plaster

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. *As an effectual means for Strengthening the system when debilitated by disease or other causes; as a certain and instantaneous Pain Dispeller; as a preventive for colds, and in all affections of the chest generally, the* GALVANIC STRENGTHENING PLASTER will be found of great and permanent advantage

☞ Numerous testimonials of the most favorable from many distinguished physicians and others of the North have been received by the Proprietor. These are all from persons of the highest respectability and may be seen on application to the Agents.

The public are respectfully warned against SPURIOUS IMITATIONS of these articles. Dr. CHRISTIE has but one authorized Agent in each city of the Union, GUION & CO., corner of Pearl St. Chatham and Thames Streets, New York. Agents for New Orleans, of whom alone the genuine articles can be obtained. m14—1m

FRANKLIN HIGH SCHOOL.

Corner of Royal and Hospital streets, New Orleans.

PARENTS and Guardians are respectfully informed that the classes are now fully organized in the new building at the corner of Royal and Hospital streets. It is hoped, with some confidence, that the commodious and extensive arrangements for the better accommodation of the pupils, will meet with the approbation of the patrons of the Institution; and of others who may have youths under their charge.

The great object to be attained in the school education is the acquiring of habits of untiring industry and indomitable perseverance, the course of exercises, through which a young man must pass in order to reach the goal, of intellectual discipline, being the best necessary in possession of every other desired attainment.

The principle here laid down forms the basis of the mode of instruction, pursued in the Franklin High School.

The course of studies comprises the English, French, Spanish, Latin and Greek languages; Arithmetic, Algebra, Geometry, Trigonometry, Surveying, theoretical and practical Astronomy; the French, Spanish, English and Italian Classics, Rhetoric, Belles Lettres, moral and natural Philosophy; Botany and Chemistry; Music and Drawing.

The College is supplied with a Philosophical apparatus.

The professors in the English, French, Spanish, German and Italian languages, are gentlemen to whom the language which each teaches is his mother tongue.

The scholastic year commences on the second Monday in September, and finishes on the last Thursday in July, on which day the annual commencement is held, premiums are distributed and degrees conferred.

The terms for boarding, lodging, tuition, washing, mending and doctor's fee are $150 per annum, payable half yearly in advance. An extra charge of $10 per annum will be made for those who study Spanish, German or Italian; the same extra charge for the study of Natural Philosophy and Chemistry, to pay for the breaking of apparatus. An extra charge of $25 will be made for the study of Music or Drawing.

If parents desire their children to be clothed of the Institution, it will be necessary to place a sufficient sum in the hands of the Treasurer.

Semi annual bulletins, informing of the health and progress of the pupils, will be forwarded to parents and guardians.

Those who may send from foreign countries, or remote districts, will please to appoint a responsible agent at New Orleans or St. Louis.

N. B.—For further information, apply to Rev. P. CHANDY, agent of the College and actually residing at the Bishopric. (On the 25th inst., he will leave for the College, and will take charge of the youths parents might wish to send to the Institution. m18—12tm
