Commodore Lopez.

...Among the many incidents connected with the movements of the two fleets, the other now cruising off the Gulf of Mexico and which is destined to engage ...them, which may in a great measure terminate the ...contest is hourly anticipated with fear, impatience ...curiosity, it may not prove uninteresting to our ...readers to trace the past history of the personage ...whose name we have chosen for the caption of this article, who has been invested with the entire command ...of the Mexican naval forces, and who is expected to ...regain on the seas the ill-fated laurels which have followed the land expedition against Texas.

...The brief biography which we shall give to the public embraces but a period of a few years, for so little ...is known of this hero, that however much we may ...the researches of his historian, it will be impossible for him to fill up his chapters of life that offers so few striking incidents, and which has almost passed by unnoticed up to the present moment, when by chance, ...or rather through the necessity under which Mexico is placed to provide a navy, he has been elevated to a ...command which was once honored by the brave and gallant Porter.

...Don Lopez (we cannot at this moment call to mind his Christian name) is a Spaniard by birth. He was born in one of the Canary Islands in the year 1794 or '95. The misery which pervaded the lower classes of the population of those Islands at that time, induced ...fifteen years of age to embark for Cuba, where ...with activity and a little industry, the prospect was ...held out of procuring the means of existence, if not of ...securing a large fortune. It is known that the mass ...of colonists, and particularly those of the Canaries ...as it accustom themselves to managing a craft; and ...therefore turn an honorable penny by ...as well as those who prefer the more ...ing. Whatever motives may have ...ed him to the sea, it is certain that ...ing parent, necessity at last, forces them to become ...mariners, and they ultimately accepted for being the best ...seamen in the world.

...Our commodore passed like thousands of his com... through the hard and toilsome ...to boat and take a ship, to row and paddle a ...until by degrees he ...vessel, knowing no more Nautical knowledge now ...than he acquired on board of the Mexican fleet, than he had when he carried passengers over from Havana to ...the village of Regla. We believe he would do well ...enough to flourish the cat-o-nine tails over some un... disciplined seaman or youthful de inquent; but this ...may be fairly owned as the extent of his capabilities.

...He is in manners more vulgar than the ma... jority of those who are to be found in the most de... graded walks of life, excessively ignorant, he attempts ...occasionally to play the part of wit, and is often ...the most expressive dunce. He is contemptible and derision... the qualities he is constantly making which he can ...claim render him a fit associate of the Sir Monford ...de Rode Rock. He has however a certain kind of sensibility that does him honor. He has given several ...examples of this feeling, the most brilliant of which is the following.

...When the news of the declaration of Texian Independence ...Cuba reached the ears of Don Lopez, a citizen of the ...Antilles touched the chord of his heart, and he ...thought he perceived the finger of fate. On the one ...hand he beheld the accomplishment of having ...so great a man, and with the same moment of thought ...said he to himself *Desgraciado de mi! ... he ...de mi amigo, su protector! ... ! que voy yo a hacer a ...here!* "Unfortunate that I am, I have lost my friend, ...my protector, what shall I do now!"

CAUSE AND EFFECT.

...It is natural and it is common for men to ascribe their ...guilt and misfortunes to the actions of others, when ...they are themselves alone to blame. The treasury cir... cular requiring specie to be paid for the purchase of pub... lic lands, is one other was in the mouth of every whig ...as the primary and sole cause of the embarrassed state ...that depresses the commercial world. It is evident, ...however, from the wild and extravagant speculations ...in lands that were going on for two years before the ...issuing of the circular, and the unprecedented quan... tity of paper money with which the whole country was ...covered, that the bubble would sooner or later burst; ...the paper money be rendered worthless, and consequently the treasury of the United States a loser to the ...full amount of the nominal money that should be in its ...vaults. The arrival of such a crisis was not unforeseen ...by men of slower minds then that of Andrew Jackson. ...Henry Clay predicted it—but he obtained his fore... knowledge from his intimacy with Nicholas Biddle and ...his acquaintance with the routine of operations of the ...United States Bank.

...Even Judge Porter pretends, after the event has ...come to pass, that he foretold it; well—if the crisis ...was to come—if the signs in the heavens indicated ...that a storm was approached, was the master of the vessel ...to stand idle with his hands in his pockets, and make ...no preparation to meet and avert its fury? Was the ...chief magistrate of the country, chosen by the people ...to watch over and protect their interests, to wait until ...the termination of the speculation-mania should leave ...all the banks with broken capitals and the vaults of ...the treasury filled with notes more worthless than ...much wish paper? The only true cause of complaint ...in relation to the specie circular is as the New York ...Herald justly observes, that it was issued twelve ...months too late. If it had been issued in July 1835, in... stead of July 1837, how many persons, ruined by mad ...purchases of land, would have been saved from bank... ruptcy! How much misery and anguish would have been ...averted from individuals and from families! Issued ...as it was rather tardily, as the animation of inflation ...had been instrumental in preventing, to be estimated? ...—Suppose it had been delayed twelve months longer, ...what would be the situation of the country? The dis... tress that now pervades the people would, great as it ...is, be light in comparison to the universal ruin which ...would have ensued, had the rage for speculation fer... mented and inflated the paper bubble a little longer. The ...prospects of the country at the present are very flat... tering.—[Hunsdale's Pic Nic.

...From November 1834 to July 1835 the U States Bank expanded its discounts from about 45 millions to ...65 millions, and its issues of notes from about sixteen ...millions, to about twenty five millions.

...The local banks, tempted by the example of the U States Bank, expanded their discounts from about 365,... 000 to 0. January 1, 1835 to 467,000,000, January 1, ...1836.

...In the year 1835 the imports of foreign merchandize ...increased from 125,000,000, in 1834 to 150,000,000, and ...in the year 1836 to about 190,000,000.

...The year 1835 was a year of public land increased ...from 4,000,000 in 1834, to 13,000,000, and in 1836 to 24, ...000,000.

...In the year 1837 the banks in general are obliged by prudence to contract both discounts and issues.

...In the year 1837 imports of foreign merchandize ...are less by at least thirty three per cent than in ...1839.

...In 1837, the sales of public lands are not one half the average amount monthly that they were in ...1836

...In those statements there can be no error or exag... geration, and to promptly expose the clearly show the ...origin and causes of the present embarrassments of ...the mercantile portion of the community.

A large number of the bankers that have ta... ken place, show ample securities, which in times of ...dinary bad, would have money at the lowest rates—...the many of the New Orleans brokers are placed in ...the same situation. Our banks continue discounting ...freely.

...The shoe dealers in Massachusetts, have sent a ...committee to this city, to ask a strong remonstrance for an ...extension of time to the houses that have stopped ...payment, and the prospects is, that in many cases, ...the compromise will prove but temporary.

...The money market was again seriously agitated ...this morning, by advices from Albany, that the banks ...of that city would receive no more paper of the west... ern safety fund banks. The state of the case we be... lieve to be this.

...The comptroller had given directions that the State ...Treasury would receive no bills of certain western ...and southern banks which were specified, and which ...we forbear to mention, inasmuch as it was under... stood last evening at Albany that the order would be ...rescinded this morning.

It was ...plain that such a circulated system could be safe and ...only until the first equilibrance in the commercial bar... ometer—if the slightest shock of wind touched the flimsy ...fabric—if the slightest shock of wind touched the flimsy ...sy barque and her paper sails to bear her on the wa... ters of broken confidence and irreparable bankruptcy.

...To those who understand the nature and effects of ...banking, the following facts will explain the origin ...and cause of the difficulties of the money market—more ...exclusively so that it could be done by a hundred col... umns of document—We have not had time to turn to the ...table published in a recent number of the Commonwealth.

...From November 1834 to July 1835 the U States Bank expanded its discounts from about 45 millions to ...65 millions, and its issues of notes from about sixteen ...millions, to about twenty five millions.

...The local banks, tempted by the example of the U States Bank, expanded their discounts from about 365,... 000 to 0. January 1, 1835 to 467,000,000, January 1, ...1836.

...In the year 1835 the imports of foreign merchandize ...increased from 125,000,000, in 1834 to 150,000,000, and ...in the year 1836 to about 190,000,000.

...The year 1835 was a year of public land increased ...from 4,000,000 in 1834, to 13,000,000, and in 1836 to 24, ...000,000.

...In the year 1837 the banks in general are obliged by prudence to contract both discounts and issues.

...In the year 1837 imports of foreign merchandize ...are less by at least thirty three per cent than in ...1839.

...In 1837, the sales of public lands are not one half the average amount monthly that they were in ...1836

...In those statements there can be no error or exag... geration, and to promptly expose the clearly show the ...origin and causes of the present embarrassments of ...the mercantile portion of the community.

From Havana—By the arrival of the brig Nelson Clark, Capt. Hall, we have received our files of Havana papers to the 19th instant inclusive, and Price Current of the same date. We see no material change in the market.

...Exchange on London 11 a 12 per cent premium. ...Paris 24 a 3 discount. Spain 6 a 6 prem, United States 5 a 5¼ discount: New Orleans 5 do.

...The United States sloop of war St. Louis entered ...the harbor of Havana on the 17th from a cruize.

...The dates from Spain are not so late by 5 or ten days ...as they received here by way of England and France.

...A ship direct from Cadiz 22d February grabs to Don ...Michael Tacon, his sons and successors, the order of ...Castile, with the title of viscount of bay and marquis of the Universal Cuba, as a reward for his loyal ...and noble conduct during the civil wars in Spain.

...Another decree of the same date grants to Captain ...Wm Jones of the English sloop of war the Vestal, for ...the handsome part which he took in quelling the ...troubles in the provinces of the eastern district of the ...island, the cross and crown of Charles the 3d, and recommends him in a particular manner to the notice of ...the British Government.

...On the 15th ult. there were in the harbor of Havana ...of the Azores, superb vessels, of all nations, be-wit, ...28 ships, 37 barges and 18 schooners. Of this number ...there were 43 Americans, to-wit, 17 ships, 25 barges and ...7 schooners.
