OFFICE 38 CHARTRES ST.

THE DAILY BEE. WEDNESDAY MORNING, JAN. 19.

We are indebted to Dr. Acerts, Trestaurer in the Charity, Hospital, for a copy of the report of the Board of Administrators of that indice institution. From this document we learn that the number of patients admitted into the Hospital during the year 1858 was 11,337, discharged 8932 ided 1930—being an increase of 3440 patients on the number treated the previous year. This increase is attributed to the prevalence of the spidemic during the summer and part of the automatical during the prevalence of the spidemic during the patients in the aggregate was as follower. From foreign countries 2658—61 these 4568 were from Ireland, and 2900 from Germany, Russis and Switzeriand—from the United States 1751; unknown 18. The responsible to the prevalence of the Switzeriand—from the United States 1751; unknown 18. past year were \$2600 less than the prereding year, although the number of patients
exceeded by 2440 that of 1857.

The report states that the means relied on
the maintenance of the Hospital have
been far below the estimates. The appropriation made less year was \$22,000. The
prisation made less year was \$22,000. The
presence of the text on balls and conorits, instead of \$5000, brought into the
Treasury enly \$3525. The income from theatrea amounted only to the specific tax of \$100
such. The actual revenues of the Hospital,
including the Sixte appropriation, amounted
to only \$39,803.75, and consequently recourse
was bad to loans to make up the decision,
and provide for necessary expenses. It is
therefore evident, say the Administrators,
that an appropriation of at less: \$40,000 will
be required for the maintenance of the institution for the year 1809. Some permanent
ind reliable income by taxation is absolutely
necessary to prevent the Hospital from becoming, by the annual diminution of its revenues, a constant and heavy barian on the
State Treasury. Hence it is suggested that
the tax of \$500 on theatres be reliatated, and
that the dues imbised by the first District
Court of New Orleans, and the several Recorders of our city, be paid into the treasury
of the Hospital. We cordially second the
plea of the officers of the institution. The
Charity Hospital must not be saffered yearly
to present an electrosynary appeal to the
legislature, and to rely upon the precarious
generacity of that bedy. It should possess
generacity of that bedy. It should possess
generacity of that bedy. It should possess
generacity of the story of the thought to the
legislature, and to rely upon the precarious
generacity of that bedy. It should possess
generacity of that bedy. It should possess
generacity of the maintenance of revenue.
As an enduring monument of the unstitute
charities of Louisiana, it should be provided
with an unfailing due on miniscring it roduess
