TUESDAY MORNING, NOV. 24, 1868. A JUST TRIBUTE TO BOUTHER!

A VOICE PROM THE GRAVE.

We have beard so much of late from North-ern newspapers about the prejudices, th lawlessness and the violence of the people of the South, that it is gratifying to read any lest mony offered by competent witnesses to the falsity of these representations. Such test nony offered by competent witnesses to the fairty of these representations. Such test mony has been given, but it lies hidden, while lander with exhaustless fertility goes quire uncontradicted. We have always thought it arrange that those living among us, whose nativity is in the North, have so seldom though it worth their while to silence our traducers by fitting in their volces in health of the health.

OFFICE 73 CHARTRES STREET.

In the opinions we have expressed on this subject we have assumed the legality of the ordinance of the City Louncil providing for the iene of these bonds and the tax of one quarter per cent thereunder. If a majority of the lax papers vote for the ordinance we do not see how the measure could be used more legal. These who are to pay the modey authorize the tax, and there can be no better authority than that. Our objection to the ordinance was obiefly because we consider the tax an unnecessary imposition, and because there is no provision for the application of the money obtained therefrom beyond paying the interest. The project of the Council contemplates the assessing of the property holders and those paying lleosees, in a sum amounting to about three hundred thousand dollars are not applied to the reduction of the principal of the council addition to the ordinary taxation and the property holders and those paying lleosees, in a sum amounting to about three hundred thousand dollars are not applied to the reduction of the principal of the property holders and those paying lleosees, in a sum amounting to about three hundred thousand dollars are not applied to the reduction of the principal of the CITY INTELLIGENOR.
