FLOWER GOD GRANTED WINGS

Honeymoon Birds Were Best, Said Courtesan

Our courtesan is the memory of the honeymoon birds, the game of the North, where they are to be found. They are to be found in most of the states of the Union, but not in New York, where they are very scarce. Only during times of war and pestilence do we see them, but most of their food consists of fruits.

Reading birds are so small that a woman can hold them in her hand. They are said to be very intelligent, and to be able to read newspapers. They are often seen in the streets and in the parks, and are very popular.

OLD MAGAZINE COMES BACK

SPOONING CALLED LOST ART

Beechwood, N.Y., June 23, 1912.

Let me have a word here from the old Beechwood Magazine, which has been in circulation in this town for many years. It is said to be the best and most popular magazine in the country.

And yet, somehow, it has never been as popular as it was before. It is said that the Beechwood Magazine is becoming a thing of the past, and that the younger generation is not interested in it.

And yet, somehow, it is always in the hands of the older people. The young people do not seem to care for it, and it is not as popular as it was before.

This has a strange, sort of an old-fashioned feel to it. The Beechwood Magazine seems to be a thing of the past, and the younger generation is not interested in it.
