to the credit of said fund, and to be drawn out for no other purpose than the payment of the interest, or the liquidation of the principal. Whenever, after paying the annual interest, and such of the bonds are ray have matured, the amount on deposit exceeds thirty thousand dollars, the Common Council are authorized to purchase bonds amounting to the sum remaining on deposit, on complying with the usual formalities of advertising, &c.

The Court-House must be of ample size, and must contain accommedations for all the courts in the city of New Orleans, the Barrier of Convyamers, Resourcer of Mortgages, Recorder of Births and Deaths, Register of Voters, and such other public officers as the Council may direct; and provision shall further be made for the accommedation of the Legislature and State officers, whenever the seat of government of Louisians shall be removed to the city of New Orleans. The Police Jury of the Right Bank are required, on the completion of the building, to pay the just proportion of the cost which may be assessed to that part of the parish of Orleans.

We should like to see this bill passed, and go into immediate effect; but as long as the Legislature remains dead-locked and at a stand-still, we can expect nothing to be done. Perhaps the members may recover their reason before the constitutional limit of the essaion arrives, though this is doubtful.
