COURTESY POLITENESS.

MISCELLANEOUS ITEMS.

Twenty thousand of the railroads to be built next year.

At a recent meeting of the Board of Directors of the New York Central, it was decided to build a new line to the west of the present one, extending from Violin to Willoughby.

The new line will be built in the form of a horse-shoe, the branches of which will intersect at the junction of the two railroads at Violin. The distance from Violin to Willoughby will be about one hundred and fifty miles.

The new line will be completed in five years.

The cost of building the new line will be about five million dollars.

The New York Central is the only railroad to be built next year.

A NEW EXPLOSION.

Mechanics in the southern states an issue of great importance.

At a recent meeting of the Mechanic's Association of the south, it was decided to build a new line to the east of the present one, extending from Violin to Willoughby.

The new line will be built in the form of a horse-shoe, the branches of which will intersect at the junction of the two railroads at Violin. The distance from Violin to Willoughby will be about one hundred and fifty miles.
