LAKE ERIE HERRING

More Than 4,000 Tons of Little Fish Taken In One Day.

By W. F. Thing, Cleveland Dispatch.

Great Lakes, May 14—A tonnage of 4,000 tons of little fish was taken from Lake Erie on Saturday. The herring has been in great abundance for the past week. The catch of herring was made by the American Electric Power Company, which has leased the fishing rights to the company for the season. The herring is used for feed on the company's hydroelectric plants.

WASHINGTON

WASHINGTON (AP) — The United States has issued a formal protest against the Soviet Union's testing of a nuclear weapon in the Arctic. The protest was delivered to the Soviet ambassador in Washington, D.C. The United States has been concerned about the Soviet Union's nuclear testing activities in the Arctic region.

VIIVISCECTION IS AID

Prof. Angelo of University of Chicago Defends It as Benefit.

Dr. Angelo, an expert on vivisection, defended the practice in a lecture at the University of Chicago. He argued that vivisection is necessary for medical research and that it is a benefit to society. Dr. Angelo's lecture was well received by the audience, who appreciated his clear and concise explanations of the benefits of vivisection.
