Software User Rights

=

Identificiation & Loss Comparison

= "a" version of the source and binary code but not necessarily to the latest version

"Free Software" vs "Open Source Software" vs "Proprietary Software" Movements =

Yes No n.a.

"Yes" 100% of the time "No' in at least some situations and maybe in all situations (i.e. 1-100% of the time) not applicable user rights lost by non-free software (i.e. "open source" or "proprietary")

*Program Services = subroutines and modules not included in the core software ** i.e. as opposed to "program services" *** e.g. Micrososft, Red Hat, IBM

Access to "a" version of the Source Code #

No Access to Source Code

= "a" version	of the source and bi	the source and binary code but not necesarrily to the latest version						
						De Users	fends the right Developers	<u> </u>
						Free Software	Open Source Software	Proj Soft
		is the user able to run the programe for any purpose the user wants?			yes	yes		
	RUN	Can any kind of person or organization use the software (e.g. academic, commerical, non-profit, foreigner, national citizen, etc.)?				yes	ves	
		User Purpose						
			Can the software be run on any kind of computer hardware and/or software system combination?			yes	no	-
			Can it be used for any kind of overall job and purpose?			yes	yes	-
			Is the user free to use the software for whichever purpose they want to without getting permission from the developer or any other specific entity	re the core software?		yes	yes	
				t re program services(PS)	that are free software (FS-PS)*?	yes	yes	
					that are non-free software (NFS-PS)*?	yes	no	
		If the user releases the softwar	e, must it be available to be run for commercial use?			yes	yes	
	STUDY & ADAPT	Can the user	study how the	core software works?		yes	yes	
				program services	that are Free Software work?	yes	yes	
					that are Non-Free Software work?	yes	no	
			adapt the	core software to meet their individual needs?		yes	yes	
USER RIGHTS				program services	that are Free Software to meet their individual	yes	yes	-
					needs? that are Non-Free Software to meet their individual			
					needs?	yes	no	
		If the user releases the software, must it be available to be commerically developed?			yes	yes		
	REDISTRIBUTE	Core Software	Can the user redistribute copies of the core	without modifications?		yes	yes	
			software	with modifications?		yes	yes	
			Can the user charge for copies of the core software that they distribute?		yes	yes		
		Program Services (i.e. PS's)	Free Software program- services (i.e.FS-PS)	Can FS-PS be included into the core software?	,	yes	yes	
				Can the user redistribute the user-right protecting software(i.e. Free Software) that uses user-right protecting program services (i.e. Free Software) without getting permission from any other person or organization	where those service programs have <u>not</u> been modified by that user?	yes	yes	
					where those service programs <u>have</u> been modified by that user?	yes	yes	
				Can the user charge for copies of software that include user-right protecting program services (i.e. free software)?		yes	yes	
			Non-Free Software program services (i.e. NFS-PS)	Must non-user right protecting program services(i.e. Non-free) be excluded from the software that is distributed?		yes	no	
				Is the user free to withhold the distribution of software that includes non-user right protecting program services (i.e. non-free services) i.e. they don't need permission from any organization or person to do so	where those service programs have <u>no</u> t been modified by the user?	yes	no	
					where those service programs <u>have</u> been modified by the user?	yes	no	
				Is the user obliged to protect user-rights by not dealing with or making a profit from the sale of copies of non-user right protecting software that includes non-user right protecting program services?		yes	no	
		Must the software be available to be commerically destributed?			yes	yes		
	IMPROVE	Software Improvements	Can the user improve or engage someone else to improve the	core software?		yes	yes	
				program services	that are integrated into the core but are Free Software?	yes	yes	
					that are integrated into the core but are Non-Free Software?	yes	yes	
		Software Releases		the software?		yes	no	
			Can the user withhold their improvements to	any program services	that are Free Software ?	yes	no	
					that are Non-Free Software?	yes	no	
			If the user releases their soft	the user releases their software, must the author release both the source & the binary code versions?		yes	yes	
	SERVICE	Can users charge for human services associated with the software that they deliver to other users without permission from anyone **	re the core software ?		yes	yes		
				that are Free Software?		yes	yes	
			.re the program servicesthat are Non-Free Software?		yes	no		
		Are these rights irrevocable (i.e. they cannot be removed)	for core software?		yes	no		
	(i		for the program services	that are Free Software?		yes	no	
				that are Non-Free Software?		yes	no	
		Are the terms of the user rights associated with the software unchangeable (i.e. can't be retroactively changed)	for core software?			yes	no	
			for the program services	that are Free Software?		yes	no	
		changed)		that are Non-Free Software?		yes	no
