

Plastic Bag Recycling Program

5

New plastic bags are made using recycled material.

1

Shoppers return clean and empty bags to recycling bins.

2

Bags are collected and baled for shipping.

3

Bales are transported to the recycling center.

4

Used bags are cleaned, processed and repelletized.

For more information on a company that is already recycling plastic bags into bags, see: www.hilexpoly.com.
