Subject: HELP!!?!??

I just can't get hits damn silly FereBSD system to workd, and Im really good at this tsuff, but I have never seen anythign sho difficult to install, it jst wont work whatever I try so why don't y9ou guys tell me what I doing wrong.

ĐánÜääéãíá 2. Message 2

Subject: Problems installing FreeBSD

I've just got the FreeBSD 2.1.5 CDROM from Walnut Creek, and I'm having a lot of difficulty installing it. I have a 66 MHz 486 with 16 MB of memory and an Adaptec 1540A SCSI board, a 1.2GB Quantum Fireball disk and a Toshiba 3501XA CDROM drive. The installation works just fine, but when I try to reboot the system, I get the message "Missing Operating System".
