

PSF/VSE V2.2.1

Boost your Advanced Function Printing (AFP) capabilities, resource management and error recovery, with Print Services Facility (PSF) for VSE and VM. Improve operational flexibility, reduce cost and increase productivity with robust functionality, attachment options, content manipulation, paper handling features, font support and much more.

Operational Highlights:

- Enable your growing business with support for TCP/IP distributed print attachment, barcodes and more.
- Please users with options to modify and manipulate content, variable page layouts, overlays, page segments and fonts for more effective document appearance.
- Extend your AFP print capabilities to many more IBM printers.
- Drive as many impact and label printers as you need with just a PSF Tier 1 license.
- Boost productivity with system-managed resource downloading, page level error recovery and SMF accounting.

AFP Font Collection V2.1.1

AFP Font Collection for IBM z Systems provides one-stop shopping for AFP fonts designed to help you realize the full potential of your business documents. AFP Font Collection fonts are supplied in outline format, providing the capability to change font sizes easily, to support the latest IPDS printers, and enable fully graphical document viewing (not to mention the performance savings over raster fonts). For compatibility with older AFP printers, these same fonts are still supplied in 240 and 300 dpi raster formats.
