IBM® Workplace Forms™ Viewer

Version 2.6.1

What's New

First Edition (September 2006)

This edition applies to version 1, release 2.6.1 of Workplace Forms and to all subsequent releases and modifications until otherwise indicated in new editions.

This edition replaces version 1, release 2.6 of Workplace Forms.

Contents

New features and improvements

The following improvements have been made in this release of the Viewer.

Note: Improvements to the API may also affect the Viewer. For detailed information about new features and improvements in the API, see the *Workplace Forms™ Server What's New* document.

Installers

Three installers are now provided for the Viewer:
* The standard installer (approximately 61 MB) is a multi-language installer that installs the standard (multi-language) Viewer (including the JVM) and several sample forms (see below).
* Two reduced file size installers are also provided:
    – The first reduced file size installer (approximately 19 MB) is an English-only installer that installs the (multi-language) Viewer without the JVM and without the sample forms.
    – The second reduced file size installer (approximately 30 MB) is a multi-language installer that installs the (multi-language) Viewer without the JVM and without the sample forms.

You may want to use the reduced file size installers if download times are an issue (for example, if users must download the Viewer over a dial-up connection) and your forms do not call Java™ extensions or use Web services. Java extensions and Web services require a JVM on the user's system. (If you can ensure that your users already have a supported JVM on their system, then you can call Java extensions or use Web services in your forms. For a list of supported JVMs, see the *Workplace Forms Viewer System Requirements* at http://www.ibm.com/support/docview.wss?rs=2357&uid=swg27008286.)

Sample forms

Sample forms are now installed with the Viewer (when installed via the standard installer). To access the forms, click **Start** › **Programs** › **IBM Workplace Forms Viewer 2.6** › **SampleForms**.

Portal 6.0 support

The Viewer can now render forms within IBM® WebSphere® Portal 6.0.

Appendix. Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive
Armonk, NY 10504-1785
U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

IBM World Trade Asia Corporation
