The New Mail Experience: IBM Verse

Suggestions

Important people to me!

The screenshot displays the IBM Verse email interface. At the top, a navigation bar includes 'Mail', 'Calendar', 'People', 'Communities', and 'Apps'. Below this is a 'Compose' section with a search icon and settings. The main area is split into two panes. The left pane shows a list of messages, including 'New Vendors Onboarding', 'Heather Reeds Expense Report Approval', 'Gail Chao Agreement with Zetabank Systems', 'Heather Reeds, Larry Moriarty, Gail Chao Re: Strategy Plans', 'Heather Reeds Marketing Budget Report - draft', and 'Gail Chao Technical Requirements Doc'. The right pane shows the content of the selected email, 'Summit International Awards', with a reply and forward options. At the bottom, a calendar view for Monday, January 26, is visible, showing a 'Business Review - Greenwell Coin' meeting from 1:00 pm to 3:00 pm. Two calendar events are highlighted with callouts: 'Invitation: Greenwell Coin Requirements' (9:30 am - 11:00 am) and 'Marketing Budget' (10:00 am - 11:30 am).

Thank you, Lee Bucket, Omar,

I would say thank you to you and your team for the diligence you have shown in helping us to deliver the Greenwell. This is a great success for us as a business partner but we could have in no way managed to come through on this without the level of support displayed by you and your team and I hope you will pass on my thanks to them.

As one final thing, would you be able to send me the project guidelines we drew up- I think it will be invaluable for our next engagement. Thank you and well done.

Best wishes,

Lee

Hi Guys,

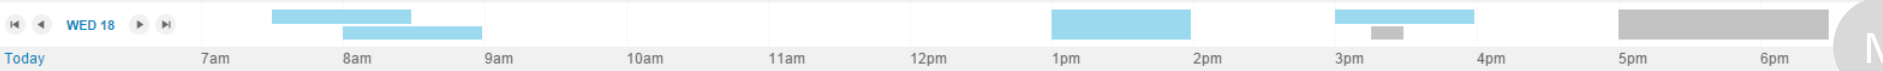

The company is looking to update our externally facing material for our public website. Right now Omar and I have begun working on a draft document but your views are more than welcome on this process.

Omar can I ask that you organise things and set up a meeting with any other assets we need. ETA is 2 weeks

That is awesome! I didn't know it was integrated into consumer sites to give the answers and the like. Check out this video that talk about how Watson is impacting the way we see data analyzed:

BTW - I LOVE how I can just drag and drop the attachment into here :)

Omar,

I just wanted to quickly e-mail and say thank you to you and your team for the diligence you have shown in helping us to deliver the Greenwell project. This is a great success for us as a business partner but we could have in no way managed to come through on this without the level of commitment displayed by you and your team and I hope you will pass on my thanks to them.

As one final thing, would you be able to send me the project guidelines we drew up- I think it will be invaluable for our next engagement. Thank you and well done.

Best wishes,

Lee

**How do you
Organise
yourself?**

The screenshot shows the IBM Verse interface with several callouts highlighting key features:

- Manage your Actions:** A blue callout box pointing to the top navigation bar containing icons for mail, watch, checklist, and a row of user avatars.
- Manage your time:** A blue callout box pointing to the bottom time management section, which includes a calendar view for Wednesday and a meeting card for "Partner enablement" at 11 am - 12:30 pm.
- Get your social notifications:** A blue callout box pointing to the "Social Notifications" section, which lists 3 Network Invitations, 1 Wiki Update, and 4 Files Shared with You.

The interface itself is divided into several sections:

- Header:** Includes "Compose" and "Inbox" buttons, a search icon, and a row of user avatars.
- Latest Messages:** A donut chart showing message counts by category: External (3), Management (2), Other (3), and Team (6), with a total of 14.
- You Owe Others:** A section with three circular gauges showing counts for Today (4), Tomorrow (2), and Next Week (12).
- Owed To You:** A section with three circular gauges showing counts for Today (6), Tomorrow (1), and Next Week (2).
- Top People Sending Messages:** A donut chart showing counts for Rita Ferrar (2), Gail Chao (24), Jim Lender (6), and Lukas Geiger (4), with a total of 36.
- Next Meeting:** A card indicating a "Team Marketing Meeting" in 15 minutes at 555-111-2222 PC 3245453.
- Free Time Today:** A section with four time slots: 9:00am - 10:00am, 10:30am - 11:00am, 1:00pm - 2:00pm, and 3:00pm - 4:00pm.
- Social Notifications:** A section listing 3 Network Invitations, 1 Wiki Update, and 4 Files Shared with You.
- Calendar:** A horizontal bar at the bottom showing the current day (WED 3) and a meeting bar for "Partner enablement" from 11 am to 12:30 pm.

Welcome Larry!

PAVANJEET SINGH Hi @Luis Benitez, can you please advise if @IBM Watson responded to my question on IBM Watson. I saw a post on your page where Watson responded, but tried it myself with no response yet.

I'm 86.592% confident that this this may help: 'After making a change to a user's Domino internet password on the server, an Apple device utilizing Lotus Notes Traveler will no longer sync (though it was working fine before this change). The device will attempt to connect, and simply fail to get new email. There will be no error to the user that the password is incorrect. Resolving the problem. The internet password used on the device is stored locally and can't be updated from the server. C. Ferguson replied to the Has File Synch been removed from SWG Connections topic thread in the Connections.swg forum.

Hi,

Just checking if File Synch has been removed from SWG Connections. It seemed to be working fine late last week, but with the new look and feel now running... I am getting synch errors, and I don't see the option to synch in the FILES app.

Is this just me? something need kicked on the server? or a wider decision to remove Synch?

Turn Airplane mode off and now the device will sync successfully with the new password. If I got it right, can you Like my answer?

can you give me a css patch that fixes the layout of the video playing area and the controls?
 I did this but it only half fixes it. The video controls are still way off the screen.
 Hack the height if you have to. John Girata should be working on fixing this with you in the lab...

IBM Watson Tone Analyzer

Hi Team, I know the times are difficult! Our sales have been disappointing for the past three quarters for our data analytics product suite. We have a competitive data analytics product suite in the industry, But we need to do our job selling it! We need to acknowledge and fix our sales challenges. We can't blame the economy for our lack of execution! We are missing critical sales opportunities. Our product is in no way inferior to the competitor products. Our clients are hungry for analytical tools to improve their business outcomes. Economy has nothing to do with it. In fact, it is in times such as this, our clients want to get the insights they need to turn their businesses around. Let's buckle up and execute. In summary, we have a competitive product, and a hungry market. We have to do our job to close the deals. Jennifer Baker Sales Leader, North-East Geo.Data Analytics Inc.
