Tridex NYC IMS User Group April 8, 2009 Agenda

8:00 - 8:30	Registration and Breakfast	Speaker
8:30 - 9:00	Welcome and Introductions	Nate Murphy
9:00 - 9:45	<p>Get SMART About Leveraging Specialty Engines Learn how you can take the "smart" approach to maximize savings and performance when it comes to leveraging your specialty engines for SOA workload.</p>	Dusty Rivers, GT Software
9:45 - 10:00	Break	
10:00 - 10:45	<p>IMS 10 Update IMS V10 has many enhancements to IMS base product along with enhancements to integrate IMS into the world of SOA. This session will provide an overview of the new features and functions available in IMS since IMS 10 became generally available.</p>	Ken Blackman, IBM
10:45 - 11:00	Break	
11:00 - 12:00	<p>IMS Callout Techniques We all know that IMS is a top-class Service Provider in an SOA environment. But sometimes your IMS application needs to be a consumer of a Service. This presentation will cover the various techniques that IMS provides for IMS application to user external services.</p>	Ken Blackman, IBM
12:00 - 1:00	Lunch	
1:00 - 3:00	<p>Performance Hot Topics This topic will cover some of the more recent performance issues which have been observed over the past year or so, how to diagnose them, and how to avoid having them become an issue at your installation. Any and all areas of IMS will be covered and open for discussion.</p>	Dave Viguers, IBM
3:00 - 3:15	Break	
3:15 - 4:15	<p>Performance Tuning This session will cover considerations for performance tuning in an SOA environment, exploring black holes in IMS performance with IMSPA and IMSPI and effective use of IMS Performance Analyser.</p>	Janet LeBlanc, IBM
4:15 - 4:30	Meeting Close	All
