B10 A Tour Through the IMS Gen Macros

Charles Ryan

This session provides an introduction to the IMS SYSGEN and the macros used in this process. It covers some of the most common macros and how to use them to create input for the IMS SYSGEN process. After this topic, it is recommended that you attend the *S42 – An Overview of IMS V6/7 Installation and SYSGEN* session for more in-depth details on how the IMS SYSGEN works and the steps involved in the process.
